"So the change was very much worth it, the comfort was worth it, and maybe we save a cord of wood a year and eventually that will pay off, but it is the comfort- doing it just for the comfort alone was worth the money."

-Dave & Beth Smith, Chittenden

A **trustworthy** source of advice for homeowners.

"I've lived so much longer than I thought I was going to, I realized I have to watch my pennies. The improvements are a valuable way to not freeze anymore. It's wonderful!"

-Angela Coombs, Rutland Town

"John was phenomenal – he came after hours for us because we work in the school system, so it was nice. He showed us things that he would recommend. Then he referred us to Amanda (Director of Lending), and she follows up on emails within 24 hours so that was really great. It was a really quick process, very easy turnaround, super easy."

"We went from filling our oil tank three or four times a year to one or two times a year, and reduced pellets by a ton. It's a long-term investment that's returning in the short term."
