

1 Introduced by Committee on Health Care

2 Date:

3 Subject: Health; Green Mountain Care Board; State Health Improvement Plan;
4 Health Resource Allocation Plan; certificate of need

5 Statement of purpose of bill as introduced: This bill proposes to modify the
6 scopes and functions of the Health Resource Allocation Plan and the health
7 care expenditure analysis and to revise the certificate of need process for
8 hospitals and other health care facilities. It would replace the Green Mountain
9 Care Board’s duty to create a unified health care budget with a requirement for
10 an estimate of future health care spending. It would specify that a member,
11 officer, or employee of the Green Mountain Care Board may perform services
12 that are within the Board’s jurisdiction and that the Board delegates to that
13 member, officer, or employee. The bill would also authorize the Green
14 Mountain Care Board to continue performing annual Medicaid advisory rate
15 cases for health care services to be delivered through an accountable care
16 organization.

8 behalf of a hospital, for which the capital cost exceeds \$3,000,000.00.

9 (2) The purchase, lease, or other comparable arrangement of a single
10 piece of diagnostic and therapeutic equipment for which the cost, or in the case
11 of a donation the value, is in excess of ~~\$1,000,000.00~~ \$1,500,000.00. For
12 purposes of this subdivision, the purchase or lease of one or more articles of

16 by the Board, shall be considered together in calculating the amount of an

4 (4) The offering of any home health service.

5 * * *

6 (e) ~~Beginning January 1, 2013, and biannually thereafter, the~~ The Board

10 section. Any adjustment by the Board shall not exceed an amount calculated
11 using the cumulative Consumer Price Index rate of inflation.

2 ~~Plan~~ The proposed project aligns with statewide health care reform goals and
3 principles because the project:

4 (A) takes into consideration health care payment and delivery system
5 reform initiatives;

6 (B) addresses current and future community needs in a manner that
7 balances statewide needs, if applicable; and

8 (C) is consistent with appropriate allocation of health care resources,
9 including appropriate utilization of services, as identified in the Health

14 burden likely to result from completion of the project;

15 (B) ~~the~~ The project will not result in an undue increase in the costs of
16 medical care or unduly impact the affordability of medical care for consumers.

17 In making a finding under this subdivision, the Board shall consider and weigh
18 relevant factors, including:

19 (i) the financial implications of the project on hospitals and other
20 clinical settings, including the impact on their services, expenditures, and
21 charges; and

1 (ii) whether the impact on services, expenditures, and charges is
2 outweighed by the benefit of the project to the public; ~~and~~.

3 (C) ~~less~~ Less expensive alternatives do not exist, would be
4 unsatisfactory, or are not feasible or appropriate;.

5 (D) If applicable, the applicant has incorporated appropriate energy
6 efficiency measures.

7 (3) ~~there~~ There is an identifiable, existing, or reasonably anticipated
8 need for the proposed project ~~which~~ that is appropriate for the applicant to
9 provide;.

13 existing services provided by the applicant;.

14 (6) ~~the project will serve the public good; [Repealed.]~~

15 (7) ~~the~~ The applicant has adequately considered the availability of
16 affordable, accessible ~~patient~~ transportation services to the facility; ~~and, if~~
17 applicable.

18 (8) ~~if~~ If the application is for the purchase or lease of new Health Care
19 Information Technology, it conforms with the ~~health information technology~~

5 subdivision 9440(d)(4) of this title is stayed until the competing application
6 has been ruled complete or for a period of 55 days from the date of notification
7 under subdivision 9440(c)(8) as to the original application, whichever is
8 shorter.

9 * * *

10 ~~(d) The Board may, by rule, establish regular review cycles for the addition~~
11 ~~of beds for skilled nursing or intermediate care. [Repealed.]~~

12 ~~(e) In the case of proposals for the addition of beds for skilled nursing or~~
13 ~~intermediate care, the Board shall identify in advance of the review the number~~
14 ~~of additional beds to be considered in that cycle or the maximum additional~~
15 ~~financial obligation to be incurred by the agencies of the State responsible for~~
16 ~~financing long term care. The number of beds shall be consistent with the~~
17 ~~number of beds determined to be necessary by the Health Resource~~
18 ~~Management Plan or State Health Plan, whichever applies, and shall take into~~
19 ~~account the number of beds needed to develop a new, efficient facility.~~

20 [Repealed.]

2 bankruptcy proceedings, ~~may formally declare the application uncontested and~~
3 ~~may issue a certificate of need without further process, or with such~~
4 ~~abbreviated process as the Board deems appropriate.~~

5 (ii) Any order granting expedited review shall include the
6 procedures and timelines that the Board shall follow for the expedited review
7 process. If practicable, the expedited review process shall include acceptance
8 of public comment until at least 10 days after the expedited application is
9 complete.

10 (C) If a competing application is filed or a person ~~opposing the~~
11 ~~application~~ is granted interested party status, the applicant shall follow the
12 certificate of need standards and procedures in this section, except that:

13 (i) a competing applicant or interested party may waive, in

6 (6) If an applicant fails to respond to an information request under
7 subdivision (4) of this subsection within ~~six months or, in the case of review~~
8 ~~cycle applications under section 9439 of this title, within such time limits as~~
9 ~~the Board shall establish by rule~~ 90 days, the application ~~will~~ shall be deemed
10 inactive unless the applicant, within six months from the expiration of
11 the 90-day period, requests in writing and shows good cause that the
12 application should be reactivated, and the Board grants the request. If an
13 applicant fails to respond to an information request within ~~12 months or, in the~~
14 ~~case of review cycle applications under section 9439 of this title, within such~~
15 ~~time limits as the Board shall establish by rule~~ six months, the application ~~will~~
16 shall become invalid unless the applicant requests, and the Board grants, an
17 extension.

7 to intervene under this subdivision within 15 days after the petition is filed.

10 granted, the Board shall provide the information necessary to enable the party
11 to participate in the review process, including information about procedures,
12 copies of all written correspondence, and copies of all entries in the application
13 record.

15 of the application shall be provided ~~in newspapers having general circulation in~~
16 ~~the region of the State affected by the application~~ electronically on the Board's
17 website. The notice shall identify the applicant, the proposed new health care
18 project, and the date ~~by which a competing application under section 9439 of~~
19 ~~this title or a petition to intervene must be filed,~~ time, and location of any
20 public hearing.

1 (9) The Office of the Health Care Advocate established under chapter
2 229 of this title or, in the case of nursing homes, the Long-Term Care
3 Ombudsman’s Office established under 33 V.S.A. § 7502, is authorized but

5 application under this subchapter and shall be considered an interested party in
6 such proceedings upon filing a notice of intervention with the Board. Once
7 either office files a notice of intervention pursuant to this subchapter, the Board
8 shall provide that office with the information necessary to participate in the
9 review process, including information about procedures, copies of all written
10 correspondence, and copies of all entries in the application record for all
11 certificate of need proceedings, regardless of whether expedited status has been
12 granted.
