

I was with my cousin from Colorado last weekend, who is a school counselor. I asked her how things are in CO since the legalization of marijuana. Just a few things she mentioned, increased crimes, homelessness, visits to the ER, traffic accidents, psychosis, just to name a few. Lets prevent this from happening rather than trying to fix it after it's too late.

Thank you for your consideration to NOT EXPAND Medical marijuana conditions.

Respectfully,
Jeannette Birch
