| 1 | Introduced by Committee on Human Services |
|--------|---|
| 2 | Date: |
| 3 | Subject: Human services; adverse childhood experiences; work group |
| 4 | Statement of purpose of bill as introduced: This bill proposes to create the |
| 5 | Adverse Childhood Experiences Working Group. |
| | |
| 6 7 | An act relating to building resilience for individuals experiencing adverse childhood experiences |
| 8 | It is hereby enacted by the General Assembly of the State of Vermont: |
| 9 | Sec. 1. FINDINGS |
| 10 | The General Assembly finds that: |
| 11 | (1) Adversity in childhood has a direct impact on an individual's |
| 12 | physical health outcomes. The cumulative effects of multiple adverse |
| 13 | childhood experiences (ACEs) have even more profound public health and |
| 14 | societal implications. ACEs include physical, emotional, and sexual abuse; |
| 15 | neglect; food and financial insecurity; living with a person experiencing mental |
| 16 | illness, substance use disorder, or both; experiencing or witnessing domestic |
| 17 | violence; and having divorced parents or an incarcerated parent. |
| 18 | (2) The ACE questionnaire contains ten categories of questions for |
| 19 | adults pertaining to abuse, neglect, and family dysfunction during childhood. |
| 20 | It is used to measure an adult's exposure to traumatic stressors in childhood. |

| 1 | Based on a respondent's answers to the questionnaire, an ACE score is |
|----|--|
| 2 | calculated, which is the total number of ACE categories reported as |
| 3 | experienced by a respondent. |
| 4 | (3) ACEs are common in Vermont. One in eight Vermont children have |
| 5 | experienced three or more ACEs, the most common being divorced or |
| 6 | separated parents, food and housing insecurity, and having lived with someone |
| 7 | with a substance use disorder or mental health condition. Children with three |
| 8 | or more ACEs have higher odds of failing to engage and flourish in school. |
| 9 | (4) The impact of ACEs in Vermont is evident through the rise in |
| 10 | caseloads in the Department for Children and Families, the acceleration of the |
| 11 | opioid epidemic, which is both driving and affected by family dysfunction, and |
| 12 | rising health costs associated with adult chronic illness. |
| 13 | (5) The impact of ACEs are felt across all socioeconomic boundaries. |
| 14 | (6) The earlier in life an intervention occurs for an individual who has |
| 15 | experienced ACEs, the more likely that intervention is to be successful. |
| 16 | (7) There are at least 17 nationally-recognized models in Vermont |
| 17 | shown to be effective in lowering the risk for child abuse and neglect, |
| 18 | improving maternal and child health, and promoting child develop and school |
| 19 | <u>readiness.</u> |

| 1 | (8) It is the belief of the General Assembly that people who have |
|----|---|
| 2 | experienced adverse childhood and family experiences can build resilience and |
| 3 | can succeed in leading happy, healthy lives. |
| 4 | Sec. 2. ADVERSE CHILDHOOD EXPERIENCES; WORKING GROUP |
