Subject: H.151

Vermont does not need any more gun laws that will only be followed by law abiding citizens and not the criminals.

The Vermont House version of the Mandatory Reporting System bill has been just been introduced.

These checks are not "universal" as most states do not require them and criminals will evade them.

Honest citizens will suffer the needless inconvenience and expense of a check criminals will avoid.

"No to H.151 or other gun control bills"
