

Good evening Chair Grad

I have reviewed draft 19.1 of H. 482 and in particular sections 2 and 6 for which we provided testimony to House Commerce. We encouraged the committee to limit section 2 to credit card debt so that we can better gauge the impact on the court before expanding to broader forms of debt.

Section 6 will bring uniformity to the post judgment process.

We support passage of the bill. Thank you for allowing me to submit our position in writing but if you require my testimony I am available next week.
