

To the Vermont House Judiciary:

I strongly support H.492. It is a strong first legislative step towards seriously addressing systemic racism in the State of Vermont. Activist groups like Justice for All and Justicia Migrante/Migrant Justice have worked tirelessly for too long to get legislation like this passed in Vermont. The racial disparities in the police reporting statistics are frankly embarrassing for Vermont, a state which draws a national reputation for enacting progressive policies. Please do the right thing and support H.492!

Regards,

Kristen Connors

Burlington
