

SASKIA

We had a fire drill on tuesday.
We were all outside and the only thing
I could think about was the fact that
someone with a gun could have pulled
the fire alarm to get us all in one
place.

I couldn't get over the fact that we were
a perfect target, in the sense that the
whole school was in a line and we
had nowhere to escape to. exposed

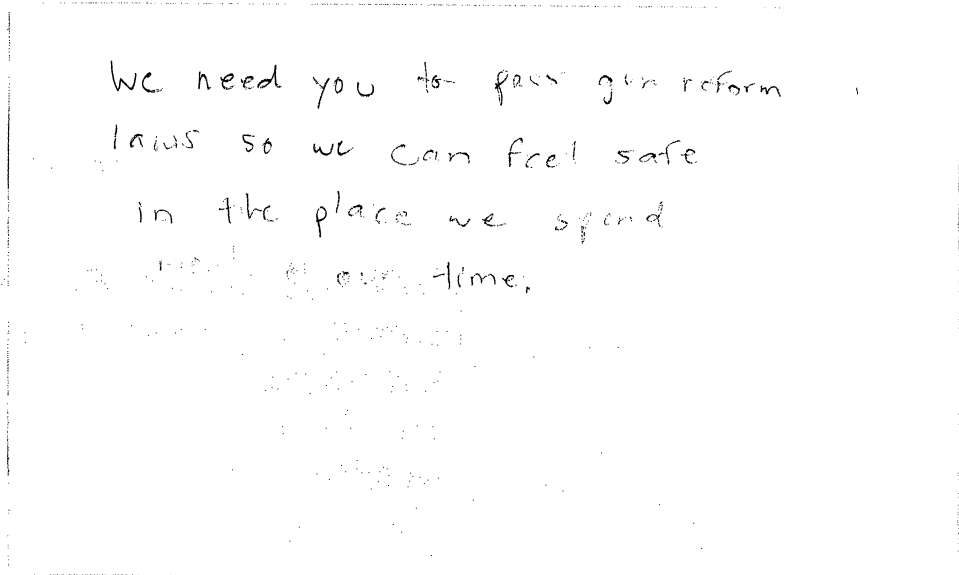

SASKIA

We have drills for our safety, so
normally I would feel safe,
but instead we live in a world where
the first thing that comes to mind is
getting shot.

We need to create an environment
where these kinds of violent events
are unthinkable.

We need you to pass gun reform
laws so we can feel safe
in the place we spend
a lot of our time.

Thank you
for your support.
