

Dear Committee Members:

My testimony from earlier this morning was with regard to draft 2.1 and based on my concerns from what I heard yesterday afternoon regarding changes. The changes in draft 3.1 are acceptable, particularly helpful is the amendment regarding “each component,” to the ACLU of Vermont and we support those changes. We remain concerned that our original objectives are not fully achieved, but we are willing to work with law enforcement to achieve those remaining objectives.

Thank you for your work. We hope the bill does not change in substantive ways any further.

Sincerely,

Jay
