

Top Ten Reasons for Banning Plastic Bags

1. They pollute land and water. If we want to leave a cleaner planet for our children, and theirs, this is low hanging fruit.
2. They're made from non-renewable resources and contribute to climate change
- 3.They never break down
- 4.They are harmful to wildlife and marine life.
5. Fragments are harmful to humans.
6. They're not easy to recycle.
7. They're costly, and add to the price of all products...and costly to clean up.
8. There are better alternatives. Reusable save money short and long term.
- 9.High external costs because of Resource extraction and depletion.
- 19.Other governments are successfully addressing this problem. It's out turn, if we want to leave a cleaner planet to our children and future generations.
