

1 TO THE HOUSE OF REPRESENTATIVES:

2 The Committee on Natural Resources, Fish and Wildlife to which was
3 referred Senate Bill No. 10 entitled “An act relating to liability for the
4 contamination of potable water supplies” respectfully reports that it has
5 considered the same and recommends that the House propose to the Senate that
6 the bill be amended by striking out all after the enacting clause and inserting in
7 lieu thereof the following:

8 * * * Contaminated Potable Water Supplies * * *

9 Sec. 1. 10 V.S.A. § 6615e is added to read:

10 § 6615e. RELIEF FOR CONTAMINATED POTABLE WATER SUPPLIES

11 (a) Definitions. As used in this section:

12 (1) “Public water system” means any system or combination of systems
13 owned or controlled by a person that provides drinking water through pipes or
14 other constructed conveyances to the public and that has at least 15 service
15 connections or serves an average of at least 25 individuals daily for at least
16 60 days out of the year. A “public water system” includes all collection,
17 treatment, storage, and distribution facilities under the control of the water
18 supplier and used primarily in connection with the system, and any collection
19 or pretreatment storage facilities not under the control of the water supplier
20 that are used primarily in connection with the system. “Public water system”
21 shall also mean any part of a system that does not provide drinking water, if

1 use of such a part could affect the quality or quantity of the drinking water
2 supplied by the system. “Public water system” shall also mean a system that
3 bottles drinking water for public distribution and sale.

4 (2) “Public community water system” means a public water system that
5 serves at least 15 service connections used by year-round residents or regularly
6 serves at least 25 year-round residents.

7 (b) Extension of public community water system.

8 (1) The Secretary may initiate a proceeding under this section to
9 determine whether a person that released perfluorooctanoic acid into the air,
10 groundwater, surface water, or onto the land is liable for the costs of extending
11 the water supply of a public water system to an impacted property. A person
12 who released perfluorooctanoic acid shall be liable for the extension of a
13 municipal water line when:

14 (A) the property is served by a potable water supply regulated under
15 chapter 64 of this title;

16 (B) the Secretary has determined that the potable water supply on the
17 property:

18 (i) is a failed supply under chapter 64 of this title due to
19 perfluorooctanoic acid contamination; or

1 (ii) is likely to fail due to contamination by perfluorooctanoic acid
2 due to the proximity of the potable water supply to other potable water supplies
3 contaminated by perfluorooctanoic acid or due to other relevant factors;

4 (C) the person the Secretary determined released perfluorooctanoic
5 acid into the air, groundwater, surface water, or onto the land is a cause of or
6 contributor to the perfluorooctanoic acid contamination or likely contamination
7 of the potable water supply; and

8 (D) extension of the public water system is the most cost-effective
9 means of delivering water to the property that meets or exceeds drinking water
10 standards set by the Secretary by rule.

11 (2) A person liable for the extension of a public water system under this
12 section shall be strictly, jointly, and severally liable for all costs associated
13 with that public water system extension. The remedy under this section is in
14 addition to those provided by existing statutory or common law.

15 (c) Liability payment.

16 (1) Following notification of liability by the Secretary, a person liable
17 under subsection (b) of this section for the extension of the water supply of a
18 public water system shall pay the owner of the public water system for the
19 extension of the water supply within 30 days of receipt of a final engineering
20 design or within an alternate time frame ordered by the Secretary.

1 (i) any substance defined in section 101(14) of the federal
2 Comprehensive Environmental Response, Compensation and Liability Act of
3 1980;

4 (ii) petroleum, including crude oil or any fraction thereof; ~~or~~

5 (iii) hazardous wastes, as determined under subdivision (4) of this
6 section; or

7 (iv) a chemical or substance that, when released, poses a risk to
8 human health or other living organisms and that is listed by the Secretary by
9 rule.

10 (B) “Hazardous material” does not include herbicides and pesticides
11 when applied consistent with good practice conducted in conformity with
12 federal, State, and local laws and regulations and according to manufacturer’s
13 instructions. Nothing in this subdivision shall affect the authority granted and
14 the limitations imposed by section 6608a of this title.

15 Sec. 4. 10 V.S.A. § 6602(12) is amended to read:

16 (12) “Disposal” means the discharge, deposit, injection, dumping,
17 spilling, leaking, emitting, or placing of any solid waste or hazardous waste
18 into or on any land or water so that such solid waste or hazardous waste or any
19 constituent thereof may enter the environment or be emitted into the air or
20 discharged into any ground or surface waters.

1 the release or threatened release of a hazardous material at the property shall
2 not be liable under subdivision 6615(a)(1) of this title for any of the following:

3 (1) A release or threatened release that existed at the property at the time
4 of the approval of the corrective action plan and complies with one or both of
5 the following:

6 (A) was discovered after the approval of the corrective action plan by
7 means that were not recognized standard methods at the time of approval of the
8 corrective action plan;

9 (B) the material was not regulated as hazardous material until after
10 approval of the corrective action plan.

11 (2) Cleanup after approval of the corrective action plan was done
12 pursuant to more stringent cleanup standards effective after approval of the
13 corrective action plan.

14 (3) Natural resource damages pursuant to section 6615d of this title,
15 provided that the applicant did not cause the release that resulted in the
16 damages to natural resources.

17 * * *

18 (c) A release from liability under this section or forbearance from action
19 provided by section 6646 of this title does not extend to any of the following:

1 (1) A release or threatened release of a hazardous material that was not
2 present at the time the applicant submitted an application pursuant to this
3 subchapter where the release or threatened release:

4 (A) has not been addressed under an amended corrective action plan
5 approved by the Secretary; or

6 (B) was caused by intentional or reckless conduct by the applicant or
7 agents of the applicant.

8 (2) Failure to comply with the general obligations established in section
9 6644 of this title.

10 (3) A release that occurs subsequent to the issuance of a certificate of
11 completion.

12 (4) Failure to comply with the use restrictions contained within the
13 certificate of completion for the site issued pursuant to subsection 6652(b) of
14 this title.

15 * * *

16 * * * Groundwater Classification * * *

17 Sec. 7. 10 V.S.A. § 1392(d) is amended to read:

18 (d) The groundwater management strategy, including groundwater
19 classification and associated technical criteria and standards, shall be adopted
20 as a rule in accordance with the provisions of 3 V.S.A., chapter 25. ~~The~~
21 ~~secretary shall file any final proposed rules regarding the groundwater~~

1 ~~management strategy, with the natural resources board not less than 30 days~~
2 ~~prior to filing with the legislative committee on administrative rules. The~~
3 ~~board shall review the final proposed rules and comment regarding their~~
4 ~~compatibility with the Vermont water quality standards and the objectives of~~
5 ~~the Vermont Water Pollution Control Act. The secretary shall include the~~
6 ~~natural resources board's comments in filing the final proposed rules with the~~
7 ~~legislative committee on administrative rules.~~

8 Sec. 8. 10 V.S.A. § 1394(a) is amended to read:

9 (a) The ~~state~~ State adopts, for purposes of classifying its groundwater, the
10 following classes and definitions thereof:

11 * * *

12 (4) Class IV. Not suitable as a source of potable water but suitable for
13 some agricultural, industrial and commercial use, provided that the Secretary
14 may authorize, subject to conditions, use as a source of potable water supply or
15 other use under a reclassification order issued for the aquifer.

16 * * * Public Trust Lands * * *

17 Sec. 9. ADDITIONAL AUTHORIZED USE; PUBLIC TRUST LANDS

18 (a) The General Assembly finds that:

19 (1) the General Assembly has the authority to authorize public uses of
20 filled public trust lands in the City of Burlington; and

1 (2) the use of the filled public trust lands in the City of Burlington
2 authorized by this act is consistent with the public trust doctrine.

3 (b) In addition to the uses authorized by the General Assembly in 1990
4 Acts and Resolves No. 274, 1991 Acts and Resolves No. 53, 1996 Acts and
5 Resolves No. 87, and 1997 Acts and Resolves No. 22, the filled public trust
6 lands within the City of Burlington that are located north of the centerline of
7 Maple Street extending north to the northern terminus of the Lake Street
8 extension completed in 2016 and that extend to the waters of Lake Champlain
9 may be utilized for public markets that benefit Vermont’s public and that are
10 available to the public on an open and nondiscriminatory basis.

11 (c) Any use authorized under this act is subject to all applicable
12 requirements of law.

13 * * * Effective Date * * *

14 Sec. 10. EFFECTIVE DATE

15 This act shall take effect on passage.
