

BUILD VERMONT PATHWAY

A ROAD TO WORKING IN VERMONT

The **Vermont Agency of Transportation** and **Vermont Technical College** have partnered to create multiple pathways to the great careers available around the state of Vermont. VTrans is a large, well-respected employer that offers competitive salaries and good benefits, including tuition reimbursement for their workforce. Vermont Tech offers degrees and certificates that align with the skills and knowledge needed for the in-demand careers of Vermont's employers, especially VTrans. Through this Build Vermont Pathway, students can get a two-year degree with a paid summer internship that, in most cases, may lead directly to a job. Serve your state and community!

**VERMONT
TECH**

CAREERS

-  Aviation
-  Civil and Environmental Engineering
-  Diesel and Automotive Technology
-  Construction Management
-  Business
-  Information Technology

PATHWAY

The VTrans/Vermont Tech pathway has multiple points of entry. From juniors in high school to career changers to veterans looking to translate their service experience into a career, the pathway offers flexibility that suits individual needs.

WHO SHOULD START ON THE BUILD VERMONT PATHWAY:

High School Juniors	High School Graduates	Career Changers	Veterans
Enroll in the Vermont Academy of Science and Technology (VAST) program. Tuition is free for Vermont students.	Apply to one of Vermont Tech's relevant two-year degree programs.	Take the CCV Career Readiness Certificate, get an Assessment of Prior Learning (APL) or transfer previous college credits to apply to a degree program.	Get an Assessment of Prior Learning (APL) or transfer previous college credits to apply to a degree program.

FINANCIAL AID

Vermont Tech keeps tuition and costs low for Vermont residents and neighboring states. We also provide qualified students with financial assistance and scholarship opportunities. VAST students can attend their first year of the Build Vermont Pathway tuition-free and leverage the VAST Forward Scholarship for one semester of the second year of their associate degree. Veterans can access their GI Bill funding for tuition assistance. All students in the Pathway program will have an opportunity for a paid summer internship between their first and second years.
