Annual processing of the Mileage Certificates for 270 municipalities, including towns, cities, gores, grant, and incorporated villages.

Changes include additions, alterations, reclassifications and discontinuances of highways and trails.

An annual mileage summary is produced and feeds the Certified Public Highway Mileage Report.

Certified Public Highway Mileage

Annually, Mapping compiles the Certified Public Highway Mileage and submits the report to the Federal Highway Administration (FHWA) on or before June 1st.

This mileage table is a key input to the mileage used by the Highway Performance Monitoring System (HPMS) used by the VTrans Asset Management & Performance Bureau.

VERMONT AGENCY OF TRANSPORTATION DIVISION OF POLICY, PLANNING AND INTERMODAL DEVELOPMENT

STATE OF VERMONT - HIGHWAY MILEAGE - FOR YEAR OF 2016

Summarized by TOWN and COUNTY Figures reported as of February 10, 2016

¹ _/ Does not include 23.969 class 1 town highway lane mileage.

[&]quot;Added "LESS OTHER FACILITIES" because Approach, Spurs, Jughandles included in mileage totals and these need to be backed out and non-inventory direction

[&]quot; 0.211 miles of Border Patrol/Customs in Richford not accounted for in VTrans mileage and not appearing in FEDMILE report.

Town Highway Maps

The Mapping Section produces 319 individual Town Highway Maps of each municipality in Vermont.

http://vtransmaps.vermont.gov/mapsftp/current.asp

National Highway System and Functional Classification of Highways

In 2016, the Mapping Section took over the responsibility of mapping the National Highway System (NHS) and the Functional Classification of the highways. This includes coordination with Regional Planning Commissions

and FHWA.

Route Logs - Straight Line Diagrams

The Section produces approximately 1600 Route Logs, which are straight line diagrams of the federal aid highway system, providing detail on geometrics, projects, AADT, crashes and other pertinent information.

http://vtrans.vermont.gov/planning/maps/route-logs

Standard Map Production

Mapping produces a series of standard maps that are available on-line, including the Town & County Map Series, Federal Urban Area Maps, State Highway Map, District Map, and more.

Additional Mapping Related Projects

Mapping has worked on the statewide acquisition of lidar data, which is high resolution terrain data, with the Vermont Center for Geographic Information (VCIG), US Geologic Survey, and a group of stakeholders. Currently all of Vermont has been acquired, and we are awaiting the final data for the Connecticut River Basin project area, which covers Windsor, Orange, Caledonia and Essex Counties.
