

Reclaiming the Promise

Only 16% of revenues for Vermont State Colleges comes from the state and our in-state tuition ranks among the highest in the nation! In fact, 84% of VSC revenue comes from tuition, placing an unfair burden on Vermont students and families.

When the Vermont State Colleges were created in 1961, the enabling legislation explicitly stated that the state would support the VSC "in whole or substantial part." This is no longer true. We urge the legislature to increase funding THIS YEAR, and to make an ongoing commitment to returning to that level of support for Vermont families and our communities.

The lack of state funding is detrimental to the VSC community in the following way:

As a student who is graduating, I fear the amount of debt I will have to pay off. I wonder if I will ever be able to live by myself while being financially stable. I am truly scared for my little brother's future and the stress and issues he'll have financially. It's terrifying

Please support the request for \$4 million increase to the VSC System, along with an annual inflator.

Sincerely,

The lack of state funding is detrimental to the VSC community in the following way:

I have been fortunate enough to have my parents pay for my education. Some of my friends rather do not. I am so upset at seeing my friends that are extremely intelligent and productive drop out because of the cost of school. There are too many kind, smart, and good people that could have changed the world if they were given the opportunity to get a degree. Please hear me out. Help us.

The lack of state funding is detrimental to the VSC community in the following way:

Many of my peers and I struggle on a daily basis to remain full time students due to lack of money. The lack of state funding that we receive seriously hurts and affects us to the point of dropping out all together. Remaining in an Undergrad program is crucial to getting a decent paying job in the future, and we all need to work to survive. We are in fear that none of this will come true and that dropping out is the only solution.

Please support the request for \$4 million increase to the VSC System, along with an annual inflator.
