**Subject:** Statement in support of Planned Parenthood

Hello Theresa,

I'd like to submit this statement in support of Planned Parenthood of Northern New England:

First of all, I'd like to thank you for paying attention to this very important issue, and for your continual support of Planned Parenthood. Planned Parenthood is an invaluable resource for so many in our state. And with the current situation in Washington, it's extremely important to protect this resource and the essential health care services that it makes available to all, regardless of ability to pay. These basic health services are really the foundation of a healthy population, and it's truly vital to the people of Vermont that Planned Parenthood is able to continue its excellent health services.

Sincerely,  
Heidi Broner
