# Vermont Department of Forests, Parks and Recreation FY 2019 Governor's Recommended Budget

Mission: The mission of the Vermont Department of Forests, Parks and Recreation (FPR) is to practice and encourage high quality stewardship of Vermont's environment by

- Monitoring and maintaining the health, integrity and diversity of important species, natural communities, and ecological processes
- Managing forests for sustainable use, including providing and promoting opportunities for compatible outdoor recreation
- Providing related information, education and service

VERMONT

FPR is responsible for the conservation and management of Vermont's forest resources, the operation and maintenance of the State Park system, and the promotion and support of outdoor recreation for Vermonters and our visitors. In addition, FPR is responsible for the acquisition, planning coordination and administration of all Agency of Natural Resources lands. Department employees are stationed throughout Vermont, including offices in Montpelier and at five regional locations.

#### FY 2019 Summary & Highlights

- 1% General Fund decrease (\$41k) from the FY 2018 Governor's Recommended excluding changes due to the ADS consolidation.
- Continued focus on expanding the outdoor recreation economy and growing the forest products industry.
- Restructuring plan moves recreation activity into the newly named Lands Administration and Recreation division and the appropriation formerly titled Forest Highway is renamed Forests and Parks Access Roads to better describe use and intent.
- 95% of the State Parks \$11m operating budget is supported by the State Parks Special Fund; principally funded by gate receipts, sales and services at parks, ski leases, timber sales on parks land, and licenses and permits on parks land.
- High visitor attendance for the last three calendar years has generated \$6.6m of revenue per year from the sale of park services and provides an estimated \$88m economic contribution.
- Federal funds comprise 22% of the Forestry division budget and 15% overall allowing for continuity of important services and programs aimed at managing and protecting our valuable natural resources.

#### Mission/Vision Statement

The mission of the Vermont Department of Forests, Parks and Recreation (FPR) is to practice and encourage high quality stewardship of Vermont's environment by

- Monitoring and maintaining the health, integrity and diversity of important species, natural communities, and ecological processes
- Managing forests for sustainable use, including providing and promoting opportunities for compatible outdoor recreation
- Providing related information, education and service

FPR is responsible for the conservation and management of Vermont's forest resources, the operation and maintenance of the State Park system, and the promotion and support of outdoor recreation for Vermonters and our visitors. In addition, FPR is responsible for the acquisition, planning coordination and administration of all Agency of Natural Resources lands. Department employees are stationed throughout Vermont, including offices in Montpelier and at five regional locations.

#### Department/Program Description

**Forestry** - Forestry programs affect a broad and expanding constituency concerned with the sustainable use, management, protection and health of Vermont's forest landscape, representing 75% of the state. These forests provide the economic resource base for Vermont's diverse forest economy through sustainable timber management (\$1.4 billion annually and over 10,000 jobs), as well as providing the foundation of the state's recreation and tourism economies. Vermont's actively managed forests also provide critical biological diversity, natural communities and wildlife habitat as well as critical functions such as water supply and quality, flood resilience, air pollution prevention, and uptake and storage of carbon dioxide.

The Forestry Division has responsibility for administration and oversight of more than 15,000 parcels covering just under 2 million acres of private land enrolled in the current use tax program for forest land; stewardship and public access and recreation activities on over 345,000 acres of state-owned land (state forests, state parks, and wildlife management areas); assisting municipalities in the management of urban trees and municipal forests; forest health monitoring and technical assistance; assisting forest products businesses including the wood energy market and the administration of forestry assistance programs.

**State Parks** - The State Parks Division is a highly complex enterprise responsible for planning, operation, construction and maintenance of the State Parks system and the conservation and interpretation of the natural and cultural resources within it. The State Park system includes 55 developed Parks that saw over 1,000,000 visits in 2015 and nearly that number again in 2016 and 2017. Those visits contribute an estimated \$88 million annually to Vermont's economy through related consumer spending in addition to significant receipts contributing to Parks operations.

Land Administration and Recreation - The Lands Administration and Recreation Division is responsible for the administration of state-owned lands managed by the three departments within the Agency of Natural Resources (ANR) and management of recreation across all FPR program areas. ANR holds approximately 345,000 acres of lands held in fee-simple ownership and an additional 140,000 acres of conservation and recreation easements on private lands held by the Agency. In this capacity, the Division maintains ANR property records and maps; administers leases, licenses and special use permits for a great variety of uses and activities on ANR lands; carries out ANR land acquisitions and other property transactions; administers the ANR Payment in Lieu of Taxes (PILOT) program; coordinates long-range management planning for ANR lands; conducts land surveys and prepares maps of ANR lands, and coordinates the development of ANR lands policies.

Dispersed recreation service is not only a prominent program of the department, but also a growing and diversifying aspect in terms of volume and public demand. The increasing demand for recreational access to the state-owned lands managed by the department coupled with a renewed appreciation for the multiple values of outdoor recreation activity to individuals and communities has led to the department's current concentrated effort to focus on expanding and improving access to recreational opportunities on department lands and in conjunction with private landowners and statewide recreation partner organizations. It is also of paramount importance to maintain stewardship and care of public recreational infrastructure assets commensurate with expanding use so as to sustain a high-quality environment and user experience.

**Forests and Parks Access Roads** - This program uses state funds to repair and maintain the extensive network of access roads on ANR lands. This network consists of approximately 600 miles of roads and is essential to the maintenance of state park and forest land, timber management, and to providing access for the recreating public.

**Administration** - The Administration Division is responsible for leadership, management and oversight of all Department divisions, programs, financial management, personnel management, policy development and legal services.

#### **Key Budget Issues FY19**

#### **Federal Funds**

Federal dollars are a critical source of funding for Forestry programs and services (approximately 22% of the Forestry budget). FPR federal funding for core Forestry Division program support has been declining. Over the last five years core funding has declined by 11% and there is great uncertainty about future award levels. We are ever mindful of these changes and trends and may need to seek alternate funding options in future budget cycles.

#### Park Visitation

Parks visitation continues to be high with the attendance of almost 1 million visitors. In addition to increased revenue and associated indirect spending visitation also brings increased operating costs primarily in the areas of maintenance equipment and materials, infrastructure improvements and seasonal staff who provide high quality front line service. Park revenue is weather dependent with summer weather impacting visitation levels and receipts and winter weather impacting revenue received from ski areas that operate on FPR lands.

#### **Lands and Facilities Trust Fund**

In FY18 general fund was restored solving the structural budget issue where formerly the Lands and Facilities Trust Fund was utilized against statutory intent for operating expenses. This allowed FPR to return to utilizing the fund for project work in accordance with statue. Accordingly \$200,000 is added back to base budget to complete priority land management projects.

#### Lands Administration and Recreation Restructuring

This budget reflects continued restructuring based on an inclusive strategic planning process aimed at using existing staffing and programs to optimally serve the Department's main program areas: Forestry, State Parks, Outdoor Recreation and Lands Administration. The Lands Administration Appropriation is now renamed to Lands Administration and Recreation. Recreation activity previously budgeted in the Administration appropriation is now included in the newly named Lands Administration and Recreation appropriation. This activity includes the Recreational Trails Program, the Land and Water Conservation Fund Program, the Vermont Association of Snow Traveler's pass-through grant, and the Vermont ATV Sportsman's Association pass-through grant, and funds from the Agency of Transportation for Bike and Pedestrian Trail work. In line with this restructure activity is moved out of the Vermont Youth Conservation Corps appropriation into Lands Administration and Recreation.

Following the above noted restructure the Administration appropriation now reflects only our centralized administrative functions and is fully supported with general funds with 61% attributed to staff (Commissioner, Deputy Commissioner, Legal Counsel, Executive Assistant and four business office staff) 23% attributed to internal service funds, 8% office space rental, 8% other operating costs.

#### Forests and Parks Access Roads Appropriation

To better communicate the use and intent of funds dedicated to the maintenance of access roads for FPR lands under this budget the appropriation formerly titled the Forest Highway Appropriation is renamed to the Forests and Parks Access Roads appropriation. These roads provide access for the recreating public, forest management and emergency services and some roads are used as local commuter routes.
