STATE OF VERMONT
GENERAL ASSEMBLY
HOUSE COMMITTEE ON COMMERCE
AND ECONOMIC DEVELOPMENT

MEMORANDUM

To: Rep. Kitty Toll, Chair, House Committee on Appropriations
From: Rep. Bill Botzow, Chair, House Committee on Commerce and Economic Development
Date: March 1, 2017
Subject: Review of Provisions in the Governor's Proposed FY 2018 Budget

On behalf of the Committee on Commerce and Economic Development, I sincerely thank you and the Committee on Appropriations for the opportunity to review the provisions of the Governor's proposed FY 2018 Budget that fall under the policy jurisdiction of this Committee. Each of us fully appreciates the difficult fiscal position Vermont faces this year, and the many difficult decisions your Committee faces as it prepares a budget.

The Committee on Commerce and Economic Development is in a unique position among other committees in that it has jurisdiction over multiple government agencies, departments, and programs whose primary purpose is to support the businesses and employees who generate much of the revenue of the State. In its deliberations, this Committee has been guided by a core principle: to grow the Vermont economy, we must invest adequate resources in the Vermont economy. As a State government, we have the duty to provide leadership, targeted resources, and effective public policy.

We have a duty to ensure that employees receive necessary education and training, and employers have the skilled workforce they need to thrive. We have a duty to sustain our established industries, such as captive insurance, and to cultivate new industries by supporting broadband and the innovative businesses that rely on modern technological infrastructure. We have a duty to support an innovative economy and the entrepreneurs who represent the future of Vermont business. And we have a duty to market our State effectively—regionally, nationally, and internationally—both through tourism marketing aimed at prospective travelers who import significant revenue into Vermont, and through economic development marketing aimed at prospective employers, employees, and students.

Accordingly, in response to your request to review the following provisions of the budget and provide recommendations, we respectfully submit the following:

Process

Last year the Committee undertook a program review process to examine 34 programs and activities within its jurisdiction, based on Vermont's Population-Level Quality of Life Outcomes and Indicators, as codified in 3 V.S.A. § 2311. The Committee heard directly from the Secretaries, Commissioners, and other program administrators on what they do, how well they do it, and if anyone is better off. Based on its review, the Committee classified each State program or activity as: (1) Most Critical; (2) Very Important; (3) Good to Do, and determined whether each program or activity should continue as currently structured, or whether—and why—it should be designated as Rethink. The Committee memorialized the results of this process in a memorandum to the Committee on Appropriations dated February 18, 2016.

Using last year's process and memorandum as a foundation, and based on additional testimony from program administrators, the Committee has reviewed the classification of each program and activity as Most Critical, Very Important, or Good to Do, and Rethink. This memorandum includes an updated list and classification of the programs and activities, as well as an explanation for applicable changes. Additionally, in view of the updated classification of these priorities, the Committee also includes its findings and recommendations on those portions of the Governor's budget language that fall under the Committee's jurisdiction.

(1) Most Critical

The Committee finds that it is most critical for State government to continue to fund and to provide the services available to Vermonters through the following programs and activities:

1. Department of Financial Regulation
2. Agency of Commerce and Community Development
 - A. Mobile Home Parks Program
 - B. Vermont Community Development Program (CDBG)
 - C. Municipal Planning Grants Program
 - D. Captive Insurance Marketing and Services
 - E. Vermont Economic Progress Council [?]
 - F. Regional Development Corporations
 - G. Regional Planning Commissions
3. Next Generation Fund - Education Programs
 - A. Dual Enrollment
 - B. Adult Technical Education
 - C. Vermont Student Assistance Corporation – Nondegree Grant Program
4. Career and Technical Education
5. Consumer Affairs Division – Office of the Attorney General

Most Critical – Changes in 2017

1. The Committee removes “Division of Connectivity – Department of Public Service,” as that program now falls under the jurisdiction of the House Committee on Energy and Technology.
2. The Committee adds “Career and Technical Education.” This year, workforce development is included in the Committee’s jurisdiction and through extensive testimony the Committee has repeatedly heard the critical importance that career and technical education has for the development of an appropriately-skilled Vermont workforce. **As discussed further below, the Committee supports additional language and funding to enable Vermont students to have exposure and access to CTE programs at an earlier age.**
3. The Committee adds “Vermont Student Assistance Corporation – Nondegree Grant Program,” which was classified last year as “Vermont Important – Rethink” because the Committee found that more data was necessary to evaluate the efficacy of the program. Having received the necessary data, the Committee finds that grants through this program effectively achieve their outcomes and provide critical access for adults seeking nondegree workforce education and training.
4. The Committee adds “Consumer Affairs Division” as a Most Critical activity that provides important protections for Vermonters and generates revenues for the State.

Most Critical - Rethink

The Committee finds that it is most critical for State government to continue to fund and to provide the services available to Vermonters through the following programs and activities, but for the reasons and to the extent provided, the State needs to consider further the structure or implementation of the program or activity:

1. Agency of Commerce and Community Development – Tourism Marketing, Economic Development Marketing, and Chief Marketing Officer

The Committee continues to designate “marketing” generally as Rethink because tourism marketing, economic development marketing, and Vermont’s brand identity are, and will continue to be, critically important to the State.

The Department of Tourism and Marketing has historically focused on tourism marketing, and the Committee emphasizes the continued importance and necessity for providing adequate funding for this activity. However, the Committee also finds that the State should seek to achieve parity between tourism marketing and economic development marketing by providing more resources and support to effectively promote Vermont as a place to live, work, and do business.

As stated in last year’s memorandum, Vermont remains the only state without an economic development marketing specialist, and in light of Vermont’s need to compete effectively with other states for both employers and employees, the Committee finds that the Department is under-resourced with respect to economic development marketing. The Agency of Commerce and Community Development, with funding from last year’s economic development bill, has

taken encouraging steps to begin implementing an economic development marketing plan and building a marketing system that will increase in sophistication and performance over time. The Committee finds that the State must provide adequate resources to the Department to ensure effective implementation of this plan.

With respect to the Chief Marketing Officer, the Committee continues to designate this position and its duties, mission, and authority as Rethink. The State must consider whether the Chief Marketing Officer position is adequately resourced, how the position fits into the overall marketing activities of the State, and whether it has sufficient authority within State government and with other marketing partners to ensure consistent use of the Vermont brand and safeguard the brand identity of Vermont.

Ultimately, the Committee finds that the State should conduct a holistic assessment of its marketing strategy and expenditures to ensure resources are deployed most efficiently and effectively.

2. Workforce Education and Training System

- A. Workforce Education and Training Fund Grants - Department of Labor
- B. Vermont Training Program - Agency of Commerce and Community Development
- C. Apprenticeships – Department of Labor and Career and Technical Education

The Committee continues to broadly designate programs and activities related to workforce education and training as Rethink. The State, through the Commissioner of Labor, working in collaboration with stakeholders within and outside government as contemplated in 10 V.S.A. chapter 22A, must continue developing an integrated workforce education and training system that efficiently and effectively meets the needs of students, employees, prospective employees, and employers using limited resources. This year the Committee adds apprenticeship programs to this classification, having heard extensive testimony that identified apprenticeships in trades as critically important to securing career opportunities now and in the future.

(2) Very Important

The Committee finds that it is very important for State government to continue to fund and to provide the services available to Vermonters through the following programs and activities:

- 1. Agency of Commerce and Community Development
 - A. Vermont Center for Geographic Information
 - B. Vermont Procurement Technical Assistance Center
 - C. Vermont Global Trade Partnership
 - D. Brownfields Initiative
- 2. Next Generation Fund - Vermont National Guard Educational Assistance

Very Important – Changes in 2017

The Committee moves “Consumer Assistance Program – Office of the Attorney General” and “Agency of Commerce and Community Development - Vermont Life Magazine,” to Rethink, as explained further below.

Very Important - Rethink

The Committee finds that it is very important for State government to continue to fund and to provide the services available to Vermonters through the following programs and activities, but for the reasons and to the extent provided, the State needs to consider further the structure or implementation of the program or activity:

1. Department of Labor

A. Workers’ Compensation and Unemployment Insurance

The Committee continues to designate these activities as Rethink because the State needs to refine its approach to independent contractors. The Committee continues its work on this subject.

B. Vermont Occupational Safety and Health Administration

The Committee continues to designate this program as Rethink because certain conforming statutory changes required by federal law remain necessary to ensure Vermont has the continuing legal authority to administer the program. The Committee currently has a bill in committee that addresses these issues, on which it will act before crossover.

2. Agency of Commerce and Community Development –

A. Department of Housing and Community Development; Act 250; Land Use; Housing; Development

The Committee continues to broadly designate as Rethink programs and activities related to land use and business growth because the Committee continues to find, through testimony concerning the Growth Center Designation Program and other State Designation Programs, and the continuing issues arising from the implementation of Act 250 Criterion 9(L), that the State must address further the persistent tension between new development and historic development patterns. The Committee also recognizes the importance of creating new and rehabilitated affordable and workforce housing as a critical workforce development issue.

B. Vermont Life Magazine

The Committee newly classifies Vermont Life Magazine as Rethink, consistent with the findings and concerns expressed above relating to the State’s overall approach to marketing. The

Committee finds that the magazine should cross-promote tourism, economic development, and the Vermont brand whenever possible to maximize efficiency, and should leverage its personnel and expertise to add value throughout State government whenever possible.

3. Next Generation Fund

B. University of Vermont – Tech Transfer

This activity involves funding in two streams: one stream through the University of Vermont to the Vermont Center for Emerging Technologies, and the second stream directly to the University of Vermont. The stated purpose of each is “for patent development and commercialization of technology and to enhance the development of high technology businesses and Next Generation employment opportunities throughout Vermont.” The Committee continues to designates this activity as Rethink, specifically with respect to the direct UVM transfer, because the Committee wishes to continue compiling data on the program and monitoring its performance.

4. Consumer Assistance Program – Office of the Attorney General

The Committee newly classifies this program as Rethink because it finds that consumer assistance is generally dispersed across many locations within State government, and the Committee wishes to further explore the best delivery mechanism for this activity and receive more information and testimony concerning its efficacy.

(3) Good to Do

The Committee finds that it is good for State government to continue to fund and to provide the services available to Vermonters through the following programs and activities:

1. Agency of Commerce and Community Development

- A. Department of Housing and Community Development - State Designation Programs
- B. Division for Historic Preservation

2. Tax Increment Financing Districts

The Committee notes that under current law no new TIF Districts are authorized, but that the issues raised by TIF districts are important to many communities. The Committee recognizes the important State role in facilitating the development of municipal infrastructure and supports exploring alternative mechanisms to achieving this end to mitigate adverse impacts on the education fund.

Rethink (otherwise without classification)

Vermont Veterinary Medicine Loan Repayment Program - Agency of Agriculture, Food and Markets

The Committee continues to designate this program as Rethink because the Committee recognizes the need for the program, but finds no evidence of private sector participation in providing supplemental or match funding, considering the Committee's recommendation last year.

Recommendations: Governor's Proposed Budget Language

In view of the foregoing discussion of programs and activities, and in response to your request to review provisions of the budget within the Committee's jurisdiction, we respectfully submit the recommendations that follow below, with an important caveat. While the Committee generally supports increased funding for economic development activities that will provide jobs, support businesses, and grow the revenues of the State, the Committee also recognizes the budget reality for the coming fiscal year. The Governor's recommended budget requests \$X million in one-time monies, and the Committee is not fully informed of the source or sources of that funding. Consequently, the Committee cannot support these new one-time expenditures to the extent they would require the State to divert funding from existing economic development or workforce education and training programs.

[Question – per Rep. Poirer proposal, does Agency carry forward all unspent amounts without reversion to general fund, or just certain appropriations?]

(b) Funding for the Vermont State Colleges shall be provided from the Education Fund notwithstanding 16 V.S.A. § 4025(b).

(1) Of this appropriation, \$427,898 shall be transferred to the Vermont Manufacturing Extension Center for the purpose of complying with State matching fund requirements necessary for the receipt of available federal or private funds, or both.

(2) Of this appropriation, \$4,000,000 shall be used to make access to college more affordable for Vermonter and to continue building Vermont's workforce.

EXPLANATION: Mostly standard language for the Vermont State Colleges. Part (b) – new – allows VSC to receive funding from the education fund and part (b)(1) – new – adds an additional \$4M VSC.

Sec. E.602.0.1 ANNUAL APPROPRIATION INCREASE FOR THE VERMONT STATE COLLEGES; REPORT

(a) Beginning in fiscal year 2019, the General Assembly shall annually increase the appropriation for the Vermont State Colleges by the mean of the prior six years of nominal average wage growth in Vermont.

(b) In order to receive this annual increase the Vermont State Colleges shall:

(1) hold student tuition increase at or below the mean of the prior six years of nominal average wage growth in Vermont in fiscal years, 2019, 2020 and 2021;

(2) establish the following performance indicators throughout the Vermont State College System:

(A) increase the number of Vermonters earning credentials of value;

(B) improve on-time degree completion; and

(C) increase the number of first generation Vermont college graduates.

(D) The Vermont State Colleges shall distribute these funds to each state college using a formula based on the performance indicators lists above.

(3) continue to drive efficiency efforts to reduce operating expenses and grow its student population.

(c) The Chancellor of the Vermont State Colleges shall provide report to the General Assembly on or before January 15th of each year. The report shall include:

- (1) the current financial performance and outlook for the Colleges;
- (2) details on how degree and nondegree programs that align with high-wage, high-growth jobs in Vermont for the decade ahead.

EXPLANATION: This language outlines the annual increase for the Vermont State Colleges and the reporting requirements to continue receiving the appropriation.

* * * COMMERCE AND COMMUNITY DEVELOPMENT * * *

Sec. E.804 Community development block grants

(a) Community Development Block Grants shall carry forward until expended.

EXPLANATION: This language allows grant funds received in FY 2018 to be carried forward until grants are fully expended. Same as 2016 Act 172 Sec. E.804.

Conclusion

The work of this Committee continues to be guided by the four goals of economic development, codified six years ago in 10 V.S.A. § 3:

- (1) Vermont's businesses, educators, nongovernmental organizations, and government form a collaborative partnership that results in a highly skilled multigenerational workforce to support and enhance business vitality and individual prosperity.*
- (2) Vermont invests in its digital, physical, and human infrastructure as the foundation for all economic development.*
- (3) Vermont state government takes advantage of its small scale to create nimble, efficient, and effective policies and regulations that support business growth and the economic prosperity of all Vermonters.*
- (4) Vermont leverages its brand and scale to encourage a diverse economy that reflects and capitalizes on our rural character, entrepreneurial people, and reputation for environmental quality.*

The Committee believes the priorities identified in the Governor's proposed budget are consistent with these goals and will have an important and positive effect on the Vermont economy. Accordingly, the Committee unanimously approves the recommendations in the Governor's budget as presented in this memorandum. We thank you again for the opportunity to review these provisions and provide recommendations to the Committee on Appropriations, and we thank you in advance for your consideration.
