

Power and Energy Storage Solutions:

Battery/Distributed Energy Storage: Utility, commercial and residential solutions ranging from the kilowatt-hour to the megawatt-hour range

North-View: Control and Monitoring Software : Control and monitoring software designed for optimal energy management

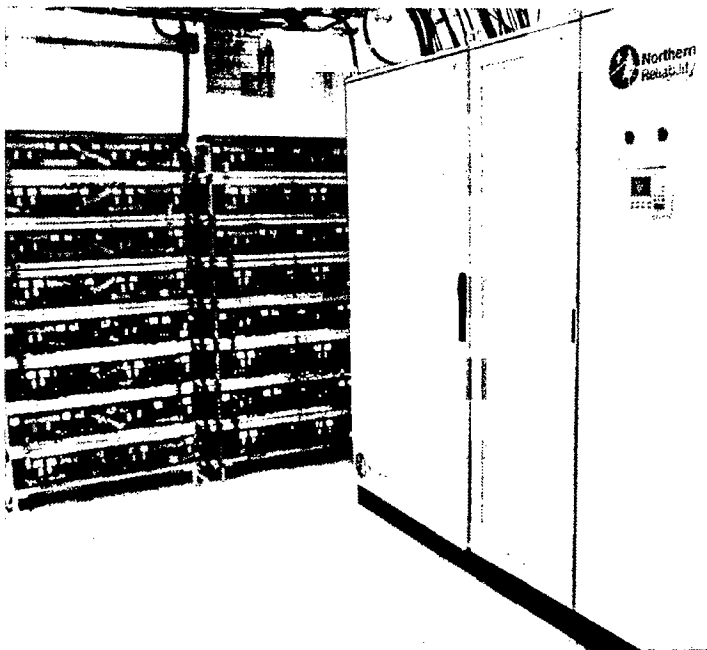

Microgrid Solutions: On-grid or off-grid systems with islanding capability and renewable generation

Solar Powered Systems: Energy storage systems powered by the sun accommodating medium to large loads

Micro Solar Powered Systems: Small-scale, solar powered systems made for quick and easy deployment

Solar Powered Obstruction Lighting Systems: High reliability beacon systems for tower, airfield and general obstruction lighting needs

Turn Key Services: NRI handles all engineering, fabrication, installation and maintenance for a timely and reliable solution

Codes

DUNS: 832142942

CAGE: 6QN29

NAICS:

- 221114 | Solar Electric Power
- 221118 | Electric Power Generation
- 334512 | Automatic Controls
- 335122 | Oil&Gas Related Structures + Construction
- 237130 | Power Related Structures + Construction
- 423610 | Batteries
- 541690 | Scientific & Technical Consulting

PSC:

- 6117 | Solar Electric Power Systems
- 6140 | Batteries, Rechargeable
- AG75 | R&D Energy - Solar / PV systems

Core Competencies

Utility-Scale Battery Energy Storage

Micro-Grid Power

Off-Grid Power

Remote, Mission Critical Applications

Photovoltaics

Obstruction Lighting

Telecommunications Power

Control and Monitoring Software

Emergency Power

Peak Shaving and Reduction

Efficiency and Sustainability Consulting

Contacts

Jon Howell - *Director of Business Development*

Representative Projects

Naushon Island: Micro Grid, Island Power System

- 60kW Microgrid PV / Diesel
- 128 kW PV / 1.5 day battery autonomy
- 1 island location

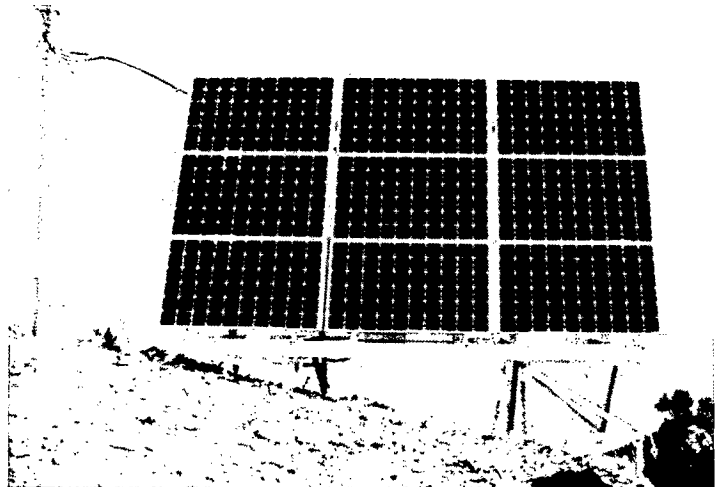

REFERENCE: Paul Elias | (617) 316-7013 | pe@jmforbes.com

Cubic Defense Corp: Solar Battery, Restricted (Military) Access

- SPS 24 Solar only
- 2.5 kW PV / 5 day battery autonomy
- 7 locations, remote helicopter access

REFERENCE: Dave Green | (858) 505-2971 | dave.green@cubic.com

PSE&G of NJ: Obstruction Lighting, Public Safety - Mission Critical

- FAA compliant lighting
- 7 day battery autonomy
- 35 locations, remote access

REFERENCE: David Carr | (816) 363-7248 | dcarr@burnsmcd.com

Jacobs Telecom: Hybrid Battery, First responder

- SPSG 96 Solar/ Generator
- 7.5 kW PV / 2.5 day battery autonomy
- 3 locations, remote access

REFERENCE: Ian Magid | (732) 225-3330
