(802) 828 3314

In more recent times, East Cottage was used as office space for the Vermont Fire Academy before the Fire Academy Administration Building was built in 2009.

We are now looking to create a modern dorm space in the East Cottage. This renovation will include electrical, Insulation, HVAC, a new interior stairway, and shower rooms.

The design for the East Cottage includes 14 dorm style rooms that could house 26 students and one advisor.
