

H. 559 Sect. 8

Forgiving Old Municipal Planning Advances

This request is in consideration of the loss of paper records during tropical storm Irene, and resulting administrative difficulties reconstructing required reimbursements from municipalities.

//////////////////// Municipalities with Planning Advances

39

**Municipalities
with drinking
water planning
advances**

36

**Municipalities
with clean water
planning
advances**

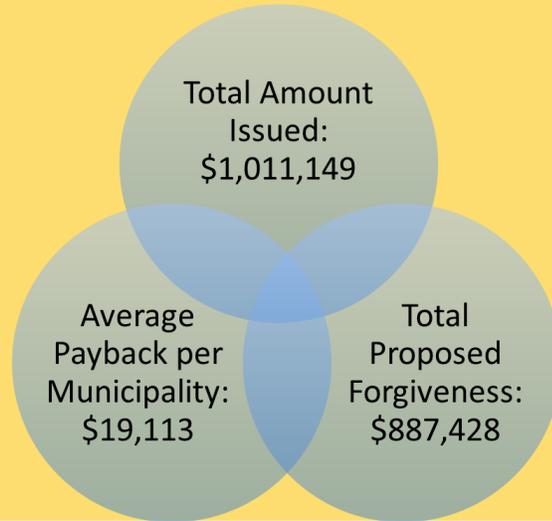

**Total funds
proposed to be
forgiven:**

\$2,010,568

DRINKING WATER PLANNING ADVANCES

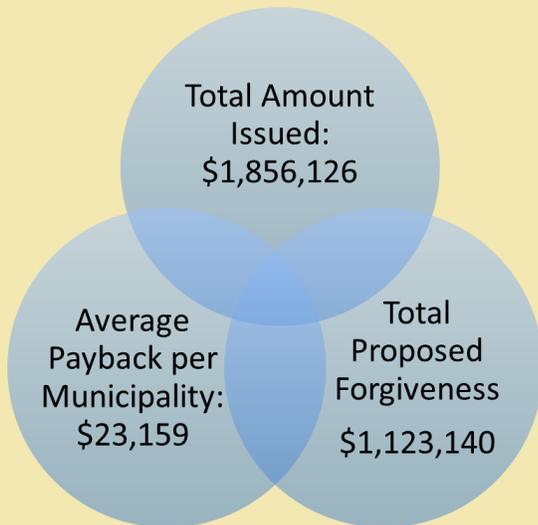

All but one drinking water advance dates back to 1996 or prior.

POLLUTION CONTROL PLANNING ADVANCES

All but two clean water projects date to 2008 or prior.

Planning advances are provided to municipalities interested in pursuing infrastructure projects. The amount of the planning advance is folded into the municipalities' loan from the Revolving Fund.

Some funds would have been repaid under loan repayment; some forgiven by the pollution control grants portion of the total funding package, once implemented.
