

Current Broadband Internet Access Configuration

- Sovernet fiber optic connection (Vermont FiberConnect)
- Fairpoint fiber optic connection

Broadband Connections Directly Support...

- Remote Hosted Electronic Medical Records System (EMR)
- Remote Radiology and remote Pharmacy telemedicine applications
- Interoperability and information exchange (VHIE, regional hospitals)
- Current in home patient encounters via video conferencing

Current State of Cellular Coverage

- VoIP applications for users connected to Grace Cottage WiFi
- Project initiated with Coverage Co to implement coverage at the hospital and clinic locations.

Cellular Coverage Essential for...

- Patients communicating with family during emergent situations
- Communication with medical staff afterhours/off site
- Alternative communication option for Emergency Preparedness
