

I can make myself available between 1 and 4 pm tomorrow to provide testimony. I can speak on behalf of the media sector and the absolute necessity to keep internet service providers from throttling internet speeds to private and public sectors. This is of vital importance in our industry due to the transfer of large amounts of information we must share across platforms to complete projects. Without high speed internet, our burgeoning sector will take a massive hit and eliminate the potential for outside production to land here in Vermont.

I am willing to speak on behalf of both Velocity Media and the Vermont Production Counsel.

Please let me know how I can help.

Best,

Kevin Chap *Managing Partner/Executive Producer*
