Subject: H.333

Hello,

I am a strong supporter of H.333, the proposed legislation requiring that any single-user toilet in any public building or place of public accommodation be identified as gender-free. I'd like to write to members of the committee about my perspective. Which address/es should I use for that correspondence? Also, is there a way to be notified about whether and when this bill makes it to a public hearing? Can you estimate when you think the bill will come before the committee for consideration?
