Subject: Butch Shaw proposed bill re: fireworks

Rep. Harrison,

I fully support this legislation.

Last summer our neighbor across the street bought & shot off fireworks right next to the road, Chittenden Road. He'd had a few drinks, never used fireworks & created quite a dangerous situation not to mention a lot of noise late at night. He apologized the next day, but the outcome could have been very different.

The public needs to know & be required to have a permit in order to safeguard others. I hope it leads to a reduced number of people using fireworks.

Thank you!

Mary Lou Bolt
