

Attached please find a potential amendment to H.624 (protection of info in the statewide voter checklist) offered by Reps. Gannon and Weed.

This strike-all would do the following:

- 1) Add a voter's **telephone number** to the list of what is confidential and exempt under the PRA (as in bill as introduced).
  
- 2) Prohibit a "public agency" from knowingly disclosing any info pertaining to a voter that is maintained in the statewide voter checklist – *or in "a municipality's portion of the statewide voter checklist"* – to "any **federal agency or commission or to a person acting on behalf of such a federal entity**" for the purpose of:
  - a. Registering a voter based on his/her info maintained in the checklist;
  - b. Publicly disclosing that info; or
  - c. Comparing that info to personally identifying information contained in other federal or state databases.
  
- 3) If a person wants to obtain a copy of the statewide voter checklist – *"or a municipality's portion of the statewide voter checklist"* – s/he would have to swear or affirm **under the penalties of perjury** that s/he won't:
  - a. Use it for commercial purposes; or
  - b. **Knowingly disclose** any voter info maintained in the checklist to any federal agency or commission or person acting on behalf of such a federal entity **in circumvention of the prohibition described in #2**, above.

We can discuss this potential amendment at your Tuesday meeting re: H.624.

Thanks,  
BAW
