

To whom it may concern,

I support the removal of the collaborative agreement transition to practice and practice guidelines for nurse practitioners as outlined in the OPR bill.

To suggest that APRNs require legally-binding documentation to collaborate on patient care is an insult to our professionalism. Removing barriers such as this is another progressive step that Vermont can take to improve the access and quality of care it gives to its residents.

Thank you for your consideration,

Jack Visco, APRN

Family Nurse Practitioner in Franklin County
