Subject: H910 reconsideration

Dear Maida,

We understand the sunset provision may have H910 hung up for a bit.

It is easily tracked and a very positive step forward.

This idea is nothing new and was discussed by legislators in the past as a way to stop or slow the runaway number of unneeded exemptions in Vermont. As you know Vermont has over 260, not counting administrative rules.

This is done in other states and is effective and easy to police.

Wish I could be there today but headed to Vermont Guard deployment announcement shortly.

I'm sure the Secretary of State and probably legislative council can help carry this out. It is not that hard going forward.

Thanks again
