

Denise

It appears I was responding to Sec. 1 in the version of S.111 that's online. Susan forwarded the proposed amendment while I was out of town on vacation and I didn't see it.

As I said, earlier, we have no problem reviewing privatization contracts for performance and/or compliance. Having said that, I do not want to be required to issue an annual report. Over time, that could become a burden. I suggest asking us to do it one or two years out and again a couple of years later.

Sorry for the confusion.

Susan is available if you need her this afternoon.

Doug
