Subject: Conceptual CON information

Conceptual CONs are a rarity (projects that will be in excess of \$30,000,000.) We have only reviewed one conceptual CON in recent years which was for UVMMC's bed tower (replacement bed project). Conceptual CON fee is same as regular CON fee at 0.125% of total project cost. Other costs would only be for a consultant's time, which was an architect in this case.

Review time: Review time is always dependent on how complete the application is and on applicant's response time to any interrogatories. In general, should take less than 60 days.
