

1 TO THE HOUSE OF REPRESENTATIVES:

2 The Committee on Health Care to which was referred Senate Bill No. 53
3 entitled “An act relating to recommendations for achieving universal coverage
4 for primary care in Vermont” respectfully reports that it has considered the
5 same and recommends that the House propose to the Senate that the bill be
6 amended by striking out all after the enacting clause and inserting in lieu
7 thereof the following:

8 Sec. 1. UNIVERSAL PRIMARY CARE; INTENT

9 (a) It is the intent of the General Assembly to create and implement a
10 program of universal, publicly financed primary care for all Vermont residents.
11 The program should ensure that Vermonters have access to primary health care
12 without facing financial barriers that might otherwise discourage them from
13 seeking necessary care.

14 (b) The General Assembly continues to support the principles for health
15 care reform enacted in 2011 Acts and Resolves No. 48, Sec. 1a, and plans to
16 use universal primary care as a platform for a tiered approach to achieving
17 universal health care coverage.

18 (c) In order to improve Vermonters’ access to essential health care services,
19 it is the intent of the General Assembly that universal access to primary care
20 services should be available without cost-sharing.

1 Sec. 2. UNIVERSAL PRIMARY CARE; FINDINGS

2 The General Assembly finds that:

3 (1) Universal access to primary care will advance the health of
4 Vermonters by addressing Vermonters' health care problems before they
5 become more serious and more costly. A large volume of research from
6 throughout the United States concludes that increased access to primary care
7 enhances the overall quality of care and improves patient outcomes.

8 (2) Universal access to primary care will reduce systemwide health care
9 spending. A study completed in accordance with 2016 Acts and Resolves
10 No. 172, Sec. E.100.10 and submitted on November 23, 2016 found significant
11 cost savings in a review of data from nonuniversal public and private primary
12 care programs in the United States and around the world. One reason for these
13 savings is that better access to primary care reduces the need for emergency
14 room visits and hospital admissions.

15 (3) The best primary care program is one that provides primary care for
16 all residents without point-of-service patient cost-sharing or insurance
17 deductibles for primary care services. The study completed in accordance with
18 2016 Acts and Resolves No. 172, Sec. E.100.10 found that primary care
19 cost-sharing in many locales decreased health care utilization and affected
20 individuals with low income disproportionately.

1 (4) A universal primary care program will build on and support existing
2 health care reform efforts, such as the Blueprint for Health, the all-payer
3 model, and accountable care organizations.

4 (5) A universal primary care program can be structured in such a way as
5 to create model working conditions for primary care physicians, who are
6 currently overburdened with paperwork and administrative duties, and who are
7 reimbursed at rates disproportionately lower than those of other specialties.

8 (6) The costs of a universal primary care program for Vermont were
9 estimated in a study ordered by the General Assembly in 2015 Acts and
10 Resolves No. 54, Secs. 16–19 and submitted on December 16, 2015.

11 Sec. 3. UNIVERSAL PRIMARY CARE; DRAFT OPERATIONAL MODEL;
12 REPORT

13 (a)(1) The Green Mountain Care Board shall convene, facilitate, and
14 supervise the participation of certified accountable care organizations, Bi-State
15 Primary Care, and other interested stakeholders with applicable subject matter
16 expertise to develop a draft operational model for a universal primary care
17 program.

18 (2)(A) Using as its basis the primary care service categories and primary
19 care specialty types described in 33 V.S.A. § 1852, the draft operational model
20 shall address at least the following components:

1 (i) who would be eligible to receive publicly financed universal
2 primary care services under the program;

3 (ii) who would deliver care under the program and in what
4 settings;

5 (iii) how funding for the primary care services would move
6 through the health care system; and

7 (iv) how to ensure maintenance of records demonstrating quality
8 of care without increasing the administrative burden on primary care providers.

9 (B) In addition to the components described in subdivision (A) of this
10 subdivision (2), the draft operational model may also include recommendations
11 regarding the specific services that should be included in the universal primary
12 care program and a methodology or benchmark for determining reimbursement
13 rates to primary care providers.

14 (3) To the extent permitted under the All-Payer ACO Agreement with
15 the Centers for Medicare and Medicaid Services and Vermont's Medicaid
16 Section 1115 waiver, up to \$300,000.00 in expenses incurred by certified
17 accountable care organizations to develop the draft operational model
18 described in this subsection may be funded through delivery system reform
19 payments.

20 (4) The Senate Committee on Health and Welfare and the House
21 Committee on Health Care may meet up to five times following the

1 adjournment of the General Assembly in 2018 to provide guidance and receive
2 updates from the Green Mountain Care Board and participating stakeholders
3 developing the draft operational model for universal primary care pursuant to
4 this subsection.

5 (5) All relevant State agencies shall provide timely responses to requests
6 for information from the Green Mountain Care Board and participating
7 stakeholders developing the draft operational model for universal primary care
8 pursuant to this subsection.

9 (6) The Green Mountain Care Board and participating stakeholders shall
10 submit the draft operational model for universal primary care on or before
11 January 1, 2019 to the House Committee on Health Care, the Senate
12 Committees on Health and Welfare and on Finance, the Department of Human
13 Resources, and the Department of Vermont Health Access.

14 (b) On or before July 1, 2019, the Departments of Human Resources and of
15 Vermont Health Access, as the administrative departments with expertise and
16 experience in the administration and oversight of health benefit programs in
17 this State, shall provide to the House Committee on Health Care and the Senate
18 Committees on Health and Welfare and on Finance their assessments of the
19 draft operational model plan for universal primary care and their
20 recommendations with respect to implementation of the universal primary care
21 program.

1 (c) On or before July 1, 2019, the Department of Financial Regulation shall
2 provide to the House Committee on Health Care and the Senate Committees on
3 Health and Welfare and on Finance its recommendations for appropriate
4 mechanisms for the State to employ to obtain reinsurance and to guarantee the
5 solvency of the universal primary care program.

6 Sec. 4. UNIVERSAL PRIMARY CARE; LEGAL ANALYSIS; REPORT

7 The Office of the Attorney General, in consultation with the Green
8 Mountain Care Board and the Department of Financial Regulation, shall
9 conduct a legal analysis of any potential legal issues regarding implementation
10 of a universal primary care program in Vermont, including whether there are
11 likely any legal impediments due to federal preemption under the Employee
12 Retirement Income Security Act (ERISA) and whether the program could be
13 designed in a manner that would permit Vermont residents to continue to be
14 eligible under federal law to use a health savings account established in
15 conjunction with a high-deductible health plan. The Office shall submit its
16 legal analysis on or before January 1, 2019 to the House Committee on Health
17 Care and the Senate Committees on Health and Welfare and on Finance.

18 Sec. 5. UNIVERSAL PRIMARY CARE; SCOPE OF SERVICES AND
19 PROVIDERS; REPORT

20 (a) The Green Mountain Care Board shall convene a working group of
21 interested stakeholders with applicable subject matter expertise to develop:

1 (1) recommendations for the specific services and providers that should
2 be included in the universal primary care program, including the scope of the
3 mental health and substance use disorder services, and suggested modifications
4 to 18 V.S.A. § 1852(a)(1) and (2);

5 (2) methods to resolve coordination of benefits issues in the universal
6 primary care program; and

7 (3) recommendations for strategies to address other issues associated
8 with the development and implementation of the universal primary care
9 program.

10 (b) On or before October 1, 2018, the Green Mountain Care Board shall
11 provide the working group’s recommendations to the House Committee on
12 Health Care and the Senate Committees on Health and Welfare and on
13 Finance.

14 Sec. 6. IMPLEMENTATION TIMELINE; CONDITIONS

15 (a) In addition to the plans, assessments, and analyses required by Secs. 3,
16 4, and 5 of this act, the General Assembly adopts the following implementation
17 timeline for the universal primary care program:

18 (1) submission by the Agency of Human Services of a final
19 implementation plan for universal primary care on or before January 1, 2020;

20 (2) enactment by the General Assembly of the funding mechanism or
21 mechanisms during the 2020 legislative session;

1 (3) application by the Agency of Human Services to the U.S.
2 Department of Health and Human Services for all necessary waivers and
3 approvals for universal primary care on or before January 1, 2021; and

4 (4) coverage of publicly financed primary care services for Vermont
5 residents under the universal primary care program beginning on or before
6 January 1, 2022.

7 (b) Implementation of the universal primary care program shall occur only
8 if the following conditions are met:

9 (1) the program will not increase the administrative burden on primary
10 care providers;

11 (2) the program will provide reimbursement amounts for primary care
12 services that are sufficient to attract an adequate number of primary care
13 providers to participate;

14 (3) the program has appropriate financing in place to support the
15 covered services while ensuring the continued solvency of the program;

16 (4) the program will include coverage for basic mental health care;

17 (5) the program will not include coverage for dental care services;

18 (6) the program will provide clear information to health care providers
19 and consumers regarding which services are covered and which services are
20 not covered under the universal primary care program; and

1 (7) the program adheres to the principles of 2011 Acts and Resolves
2 No. 48, Sec. 1a.

3 Sec. 7. 33 V.S.A. chapter 18, subchapter 3 is added to read:

4 Subchapter 3. Universal Primary Care

5 § 1851. DEFINITIONS

6 As used in this section:

7 (1) “Health care facility” shall have the same meaning as in
8 18 V.S.A. § 9402.

9 (2) “Health care provider” means a person, partnership, or corporation,
10 including a health care facility, that is licensed, certified, or otherwise
11 authorized by law to provide professional health care services in this State to
12 an individual during that individual’s medical care, treatment, or confinement.

13 (3) “Health service” means any treatment or procedure delivered by a
14 health care professional to maintain an individual’s physical or mental health
15 or to diagnose or treat an individual’s physical or mental condition or
16 intellectual disability, including services ordered by a health care professional,
17 chronic care management, preventive care, wellness services, and medically
18 necessary services to assist in activities of daily living.

19 (4) “Primary care” means health services provided by health care
20 professionals who are specifically trained for and skilled in first-contact and
21 continuing care for individuals with signs, symptoms, or health concerns, not

1 limited by problem origin, organ system, or diagnosis. Primary care does not
2 include dental services.

3 (5) “Vermont resident” means an individual domiciled in Vermont as
4 evidenced by an intent to maintain a principal dwelling place in Vermont
5 indefinitely and to return to Vermont if temporarily absent, coupled with an act
6 or acts consistent with that intent. The Secretary of Human Services shall
7 establish specific criteria for demonstrating residency.

8 § 1852. UNIVERSAL PRIMARY CARE

9 (a) It is the intent of the General Assembly that all Vermont residents
10 should receive publicly financed primary care services.

11 (1) The following service categories should be included in a universal
12 primary care program when provided by a health care provider in one of the
13 primary care specialty types described in subdivision (2) of this subsection:

14 (A) new or established patient office or other outpatient visit;

15 (B) initial new or established patient preventive medicine evaluation;

16 (C) other preventive services;

17 (D) patient office consultation;

18 (E) administration of vaccine;

19 (F) prolonged patient service or office or other outpatient service;

20 (G) prolonged physician service;

21 (H) initial or subsequent nursing facility visit;

1 (I) other nursing facility service;

2 (J) new or established patient home visit;

3 (K) new or established patient assisted living visit;

4 (L) other home or assisted living facility service;

5 (M) alcohol, smoking, or substance use disorder screening or
6 counseling;

7 (N) all-inclusive clinic visit at a federally qualified health center or
8 rural health clinic; and

9 (O) mental health.

10 (2) Services provided by a licensed health care provider in one of the
11 following primary care specialty types should be included in universal primary
12 care when providing services in one of the primary care service categories
13 described in subdivision (1) of this subsection:

14 (A) family medicine physician;

15 (B) registered nurse;

16 (C) internal medicine physician;

17 (D) pediatrician;

18 (E) physician assistant or advanced practice registered nurse;

19 (F) psychiatrist;

20 (G) obstetrician/gynecologist;

21 (H) naturopathic physician;

1 (I) geriatrician;

2 (J) registered nurse certified in psychiatric or mental health nursing;

3 (K) social worker;

4 (L) psychologist;

5 (M) clinical mental health counselor; and

6 (N) alcohol and drug abuse counselor.

7 (b) For Vermont residents covered under Medicare, Medicare should
8 continue to be the primary payer for primary care services, but the State of
9 Vermont should cover any co-payment or deductible amounts required from a
10 Medicare beneficiary for primary care services.

11 § 1853. UNIVERSAL PRIMARY CARE FUND

12 (a) The Universal Primary Care Fund is established in the State Treasury as
13 a special fund to be the single source to finance primary care for Vermont
14 residents.

15 (b) Into the Fund shall be deposited:

16 (1) transfers or appropriations from the General Fund, authorized by the
17 General Assembly;

18 (2) revenue from any taxes established for the purpose of funding
19 universal primary care in Vermont;
