

Organizations with more information on climate change mitigation in the health care sector:

- **Health Care without Harm** has resources on mitigating the climate impact of the health care sector and on building population resilience to climate change impacts on health:
<https://noharm-uscanada.org/healthcareclimatecouncil>
 - Climate Action: A Playbook for Hospitals - <https://climatecouncil.noharm.org/> or <https://noharm-uscanada.org/sites/default/files/Climate%20Playbook%20Complete.pdf>
 - Dan Quinlan (dan@solavida.org) is a local consultant who has worked on these issues with Health Care without Harm and organizes that Vermont Climate & Health Alliance: <https://www.vtcha.org/>
- **Practice Greenhealth** is another leading organization that provides resources about environmental solutions for the health care sector: <https://practicegreenhealth.org/>
 - Addressing Climate Change in the Health Care Setting: Opportunities for Action - <https://practicegreenhealth.org/pubs/toolkit/reports/ClimateChange.pdf>
- **Hospitals Aligned for Healthy Communities** provides several toolkits and case studies about actions that health systems can take to improve health through workforce development, purchasing, and investment: <http://hospitaltoolkits.org/investment/>. The toolkits aren't specifically focused on climate change or other environmental issues, but those topics are certainly addressed in some of the strategies & case studies.

Case studies of hospitals or health care systems that are working on climate change mitigation:

- Gundersen Health System case study focuses on their shift towards 100% renewable fuel sources: <http://hospitaltoolkits.org/investment/case-studies/gundersen-health-system/>
- Seattle Children's Hospital supports healthy and environmentally-friendly transportation for employees and patients: <https://usa.streetsblog.org/2015/05/08/how-seattle-childrens-hospital-took-the-lead-on-healthy-transportation/>
- UVM and other hospitals have taken strides to source food locally, reduce meat consumption, and reduce food waste: <https://medium.com/@HCWH/nourishing-patients-and-the-planet-the-role-of-hospital-food-service-in-climate-leadership-94c7ea779ee4>
- Dartmouth Hitchcock has been recognized for reducing medical supply waste: <https://www.dartmouth-hitchcock.org/stories/article/34241>
