+ Health Care Providers

UNDERAGE USE IS NOT OKAY. Their brains are still growing, so keep it away.

GoodToKnowColorado.com

MARIJUANA USE WHILE BREASTFEEDING

Know how marijuana use can affect pregnant or breastfeeding women and their babies.

MARIJUANA USE WHILE PREGNANT

Know how marijuana use can affect pregnant or breastfeeding women and their babies.

If THC gets into your breast milk, it can be passed to your baby, and may impact your baby's ability to learn later in life.

Talk to your doctor if you're breastfeeding or pregnant and need help to stop using marijuana. Your treatment will be confidential and nonjudgmental. Learn more at MothersConnection.org or call 1-800-CHILDREN for help.

To learn more, talk to your doctor and visit GoodToKnowColorado.com.

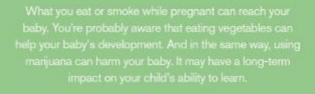

COLORADO

Department of Public Health & Environment

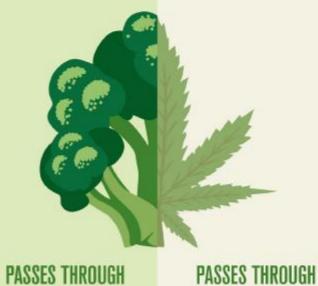

If you use marijuana at all while breastfeeding, it gets passed to your baby, THC is stored in fat cells, which means it stays in your breast milk much longer than alcohol does, so "pumping and dumping" doesn't work the same way with marijuana.

If you want to avoid possibly harming your baby, don't use marijuana in any way (smoking, eating, aping, etc.) while you're pregnant or breastfeeding.

If you are pregnant and have been using marijuana, talk to your doctor to get the support you need to make the healthiest choice. Your doctor can help connect you with treatments that are confidential and nonjudgmental.

PASSES THROUGH TO BABY.

¥ GOOD ₩ KNOW

TO BABY.

To learn more, talk to your doctor and visit GoodToKnowColorado.com BRINGS You A Bundle Of Joy.

BRINGS ON A BUNDLE OF QUESTIONS.

There is no known safe amount of marijuana use while pregnant. That's because, no matter how it's used smoked, eaten, etc.), THC gets passed to your baby.

4

Secondhand smoke from marijuana can also be harmful because it has many of the same cancer-causing chemicals as tobacco smoke.

Healthy Kids Colorado Survey 2015

ADULTS CAN HELP REDUCE YOUTH MARIJUANA USE

Supportive Teachers: Youth who agree that teachers care and encourage them are 1.7x LESS likely to use.

Talking with Parents: Youth who can ask a parent/guardian for help are 1.6x LESS likely to use.

Family Rules: Youth who have clear family rules are 1.7x LESS likely to use.

Parents' Opinion: If a parent feels like it's wrong, their children are 4x LESS likely to use.

CDPHE

#6 - Responsive Regulatory Framework

Lessons Learned: Alcohol/Tobacco

Policies to Limit Availability/ Accessibility

- Promotion
- Product
- Place
- Price

2

Increase Enforcement

1. Policies to Limit Availability/ Accessibility

- Promotion:
 - Advertising: cannot appeal to youth, no billboards, no mass media unless audience <30% under age 21
 - Signage: limits to signage allowed on storefronts
 - o **21+**
 - Aligning medical and retail advertising restrictions

- Product:
 - Packaging:
 - o Standard Warnings
 - Cannot appeal to youth
 - No cartoons
 - Child Resistant
 - o Opaque
 - o Re-sealable
 - Feb 2015:

Reduced potency of edibles

• Product: THC • Labeling: • Potency Universal Symbol • New Limitations: no pre-manufactured products o no shapes no use of word "candy"

COLORADO

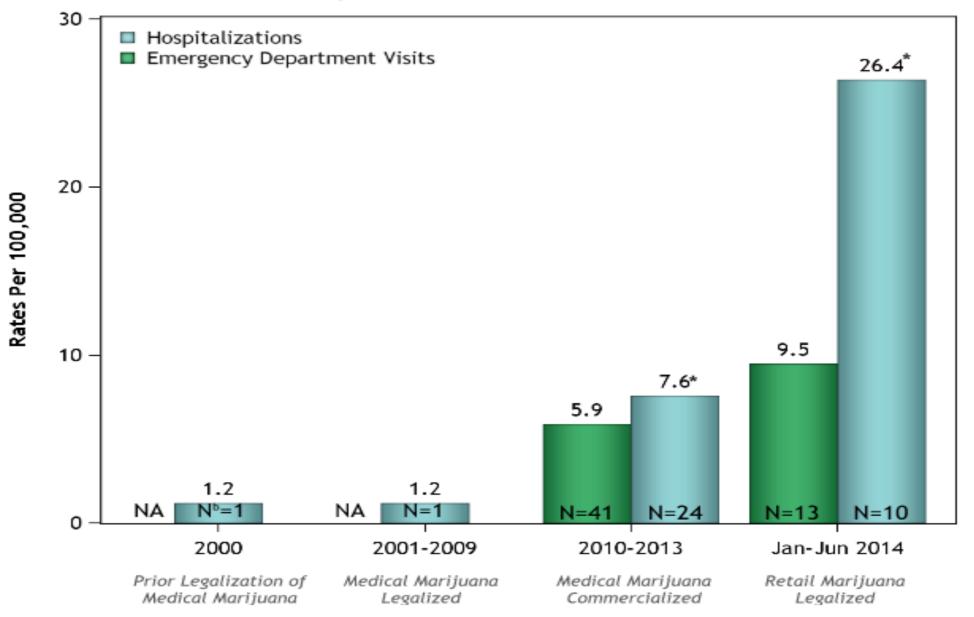

Impacts

- Hospitalization / Emergency Department
- Poison Control Calls
- Trends in Use

Health Effects Data: Young Children

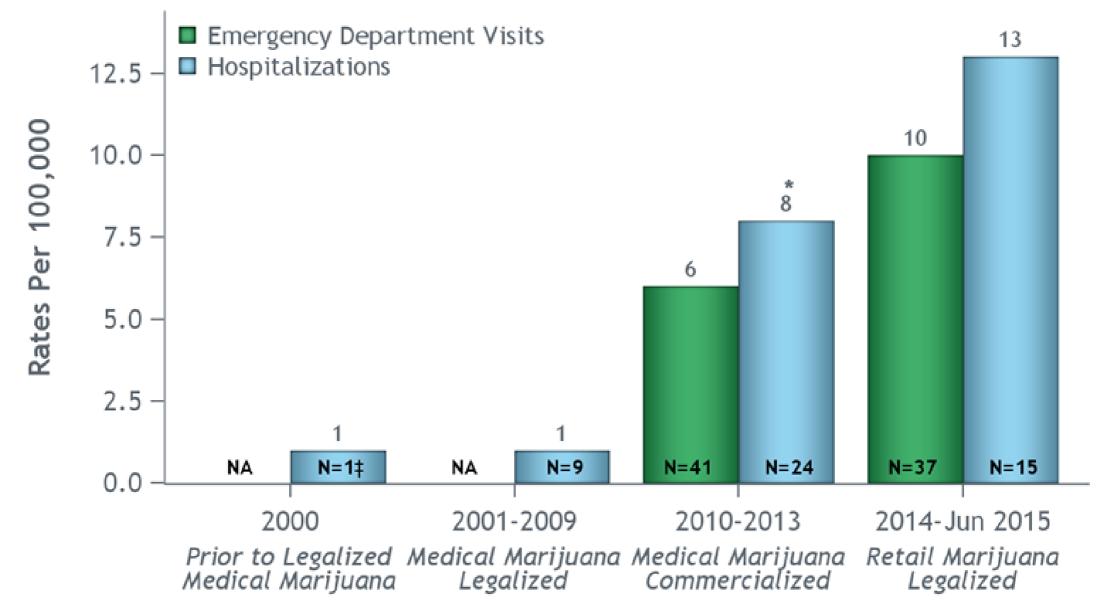

Figure 1. Rates of Hospitalizations (HD) and Emergency Department (ED) Visits with Possible Marijuana Exposures^a in Children Up to 9 Years per 100,000 HD and ED Visits in Children Under 9 Years Old by Time Period in Colorado.

History of MJ in Colorado

RMPDC Marijuana Exposure Calls through December 31, 2015 by Age Group of Case

 \bigcirc

- Place:
 - Smoke-free spaces, housing, parks, cars
 - Tobacco-free schools
 - Retailer education
 - Restrict access at home
 - Local:
 - o Density,
 - o Buffer Limits,
 - o Hours,
 - o Point of sale,
 - Number of Stores
 - Where can tourists use?

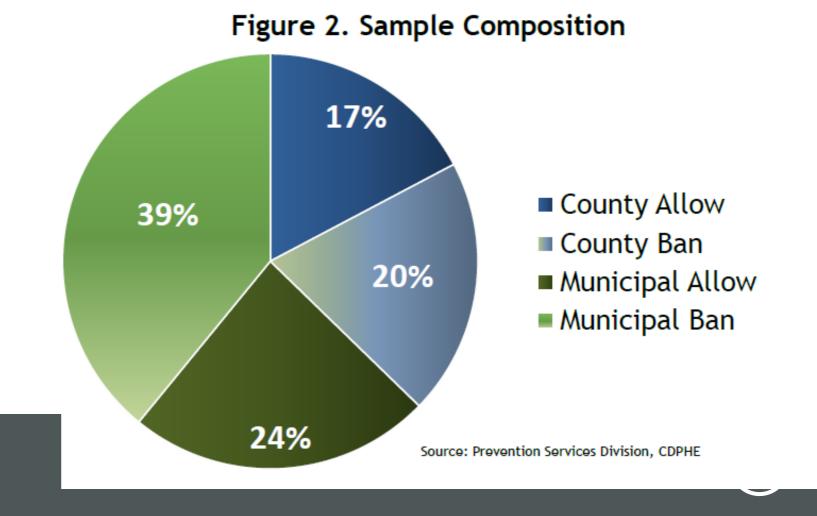

- Price:
 - 15% state excise tax (retail)
 - 10% state special sales tax (retail)
 - 2.9% state general sales tax (med & retail)
 - Locals may add up to 5% additional special sales tax for local use
 - Control black and gray markets

Policy Surveillance Tool: Law Atlas

Sampling

- Population: 303 total CO localities with enacted RMJ law on the books
- Sample: 110 CO localities coded, after exclusion of localities with population < 3,000
 - Allow RMJ: 19 counties & 26 municipalities
 - Ban RMJ: 22 Counties and 43 Municipalities

COLORADO

Final lessons learned

Listen to your audiences

Respect personal ideology, but know you will upset both sides

Go to where your audience is

Balance education with industry partnerships

Definitions matter: Don't put it in the constitution!

Be careful about differentiating hemp/marijuana

Thank you.
