TESTIMONIAL FOR LEGISLATORS REGARDING
VERMONT'S MEDICAL MARIJUANA PROGRAM

1

This Testimonial is by MR. Kerry D. LONERGAN, who is 60 years old, AND HAS OsteoArthritis, ADHD, AND ANXIETY, ~~STRESS~~ AND stage 3 Kidney disease.

OVER my years, I was into many sports, some extreme, has left me with a string of injuries, AND operations.

I have smoked MARIJUANA for a long time, but it wasn't administered for me, for different ailments. When I became a patient of the Champlain Valley Dispensary, the very kind, caring, AND very knowledgeable people there, introduced to me, different strains of medical MARIJUANA, that were good for different ailments.

SO I will inform you on what ~~my~~ ~~experience~~ was. PART I - will be mental effects regarding ADHD, stress, anxiety, AND Bipolar.

PART II - will be on PAIN.

PART I - The very helpful people at C.V.D. showed me strains of both SATIVA, AND INDICA. The SATIVA is more of a daytime MED., AND INDICA AT NIGHT.

I CAN tell you this - Either strain will work excellent, AND quickly, on any form of ADHD, stress, anxiety, ^{AND} bipolar.

It works immediately, AND in 5 mins. I'm a very relaxed AND happy AND cordial person. I've never taken anything (pills) that had these results, AND I don't lose any cognition in my thoughts. For mental health care, nothing works as well as medical Marijuana,

OR AS FAST. There are no side effects ~~that~~ that hurt you, unlike taking pills for years. The people at C.V.D., will match you with the strain that will benefit you the most.

PART II

PAIN - I HAVE lots of pain, from various things, I have severe osteoarthritis, and have suffered over the years. The people at CVD showed me some stronger strains of Indica, that ~~absolutely~~ ^{absolutely} reduced my inflammation in all of my joints substantially, ~~and~~ AND ALSO worked on my pain. It didn't get rid of all my pain, but it relieved me, by up to 80% better.

FOR A MAN that had to take pills for years, I am overjoyed by the help I got, and the results, of today's Medical Marijuana. I took NSAIDS for 20 years and ended up with Stage III Kidney disease.

After just 2 years of medical Marijuana, my Kidney disease, has reversed, and is dropping down to a much safer level.

* I just wish my state health insurance would cover it, as it is a little expensive, but they have a lot of overhead.

* I would ~~re~~ ^{re}commend the Champlain Valley Dispensary to ANY person that would like to get away from pills.

Sincerely. MR. KERRY D. LONERGAN
