Subject: Gun Control ?

As with all "gun control" legislation and the laws that are possibly generated by it, the only ones that obey these laws are law abiding citizens. You can quote polls paid for and conducted by a liberal college all you want, one fact is irrefutable, as proved by the F.B.I. year after year, Vermont is the safest or one of the top couple safest states in the union. I know that "gun control" advocates believe that this fact is in *spite* of "loose gun control" laws, but there are those of us who believe that it is *because* of them ! As was so simply stated by Senator Benning & Representative Rogers this year in front of the State House, Vermont needs "NO NEW GUN LAWS!" Your time spent in Montpelier this year will be better used if it is spent on the budget, health care, and other important matters than wasting time on pet projects of the contingency from Burlington.

Sincerely,

Pat Finnie
