Subject: Marijuana Bill

Greetings Rep. Grad: Although I do not live in your district I want you to know how very pleased I am that you are one of the sponsors of a bill to allow personal use of marijuana. It's been a very long, unsuccessful drug war and it is my hope that this bill represents the first step in eliminating criminal penalties against marijuana users. I was well aware of the concerns raised by the "commercialization" bill introduced last year. Frankly, after attending some forums I was concerned that Vermont would be overrun by folks more interested in making a buck than insuring that Vermonters were no longer penalized for their marijuana use.

Thank you again for your sponsorship of H. 170

Ginny McGrath
