Subject: H.571 Saliva testing bill

Dear Rep. Grad:

I am writing to urge you and your committee to support H 571 and to send it to the floor of the House for a vote.

A major reservation I had about legalizing pot was the chance for more drivers to be driving impaired. I believe that saliva testing is a first step to determining if some one is impaired from using pot. It may be just a non-evidentiary sample but it can lead to the police requesting a warrant for an evidentiary testing that could confirm the presence of pot or other drugs.

I think the presence of this saliva test would help remind drivers that there could be a consequence to driving after smoking pot and I think this is important to keep our roads as safe as possible.

Would you please forward this email to others on your committee?

Many thanks,
Judy Davidson
