

Dear House Judiciary Committee,

Please support the Racial Justice Omnibus Bill. We need to be doing all that we can to promote Racial Justice in Vermont. This legislation will establish a Racial Justice Oversight Board within the office of the attorney general, to track racial disparities in public institutions and provide training to public servants.

As a public school teacher, I know that many of us would like more training about implicit bias and ways to promote racial justice in our public sphere. I expect police and housing agencies would want the same.

Thank you for your service to our state, and for your consideration of the Racial Justice Omnibus Bill H.492 (S.116). Let's be on the right side of history!

Sincerely,
Cara Lovell
Burlington
