

Good Morning,

I am writing to express my support for H. 492 and S. 116.

I want to live in a world where men and women of color do not have to be afraid of police. I want to live in a world where we who have white skin are actively seeking to deconstruct the institutional power that we are given every single day. I do not want to have power over others because of my skin color. I do not want others to suffer for my benefit.

Right now in Vermont we live in a world where people of color should be afraid of police. We live in a world where we who have white skin benefit from power that comes from people of color suffering. We are not fighting this power dynamic in a way we can start to feel good about, yet.

Please hear my support for these important bills.

Thank you,

Celeste Huck
