

To the House Judiciary,

I am writing in enthusiastic support of the Racial Justice Omnibus Bill H.492. I am proud to be a Vermonter with this kind of legislation on the table, and I feel it is a very important step in addressing the real and very harmful ways that racism continues to play out in our state. Please help Vermont make history yet again, as a state that is willing to confront oppression and put measures in place towards equality, and because Black Lives Matter.

Thank you for your time,  
Hannah Morgan
