

Hello,

I know I have written before, but I'm writing again today to express my unequivocal support for the Racial Justice Reform Omnibus bill, because Vermonters of color deserve to live free from the weight of institutionalized racism.

Vermont literally leads the nation in disproportionate incarceration of black and brown people. As a white Vermonter, I find this fact deeply heartbreaking, and support Justice for All and the coalition backing this bill wholeheartedly. I know that when we act to dismantle racism, all of us benefit from each others' expanded sense of safety, belonging, and freedom.

Thank you very much for your consideration!

Best,  
Harley Meyer
