Subject: H.876 Bump Stock Prohibition

Dear Representatives,

We would like to thank Mary Hooper, Janet Angel and Kimberly Jessup for co-sponsoring bill H.876 and urge the House Judiciary to take it up and pass it out of committee.

As a society we have the obligation to protect our citizens from devices such as bump-fire stock which are solely designed for mass murder. No rational gun enthusiast needs such a weapon enhancement. Our country has seen an escalation of carnage and we beg for such legislation to feel safe in our communities, schools and homes.

THIS BILL WILL SAVE LIVES!

Thank you.
