Subject: gun sense

Hello Maxine,

I read your summary in the paper this week (VR) and I'm wondering whether you might push hard such that the purchase of assault rifles is contained to those 21 and over? Also, could you formulate measures that would require private sales and gun show sales to be registered, along with wait periods, as appropriate? I believe these 2 measures could help contain the violence, witness Australia's success. Thank you,
Connie Colman
