Subject: Coca Cola's Testimony and Greenpeace

Chairman Deen -

I'm writing in reference to the presentation Ray Dube of Coca Cola Bottling Company of Northern New England made before the House Natural Resources, Fish and Wildlife Committee on 6 April.

In presentation, Mr. Dube made unsubstantiated allegations about Greenpeace and our campaign regarding single-use plastics and Coca Cola. Given that Mr. Dube, after being given repeated invitations to explain or retract his statements for the record, has done neither, I ask to have the committee's record reflect that Mr. Dube's comments are scurrilous, untrue and misrepresent Greenpeace's position on plastics and this information shared with members of the committee.

I leave to the committee's discretion how best to evaluate Mr. Dube's other testimony in light of his inability or unwillingness to address this particular issue. Please feel free to reach out to me if you have questions or wish to discuss this matter further.

Thank you,

Mark Floegel
Research Director
Greenpeace US
