Subject: My support for a strong reporting requirement for trappers

I am writing in support of H.636, that includes the ban on coyote killing contests and mandatory reporting of trapped dogs and cats, as it's currently written.

Please support H.636

Vote "no" on Sen. Rodgers's amendments that weaken the reporting language on trapped dogs and cats by adding the word "domestic"- the word domestic will only cause confusion and result in lack of reporting.

Thank you.
