

State of Vermont House of Representatives

2/13/18

115 State Street

Montpelier, VT 05633

Chairman Deen and Committee Members

I am writing in support of H.678 with the provision to exempt the \$6.00 franchise tax on trash that comes in the state for processing and leaves the state to an out of state end facility.

Goodenough Rubbish Removal has been operating in Vermont & New Hampshire for over 30 years in the Recycling Rubbish removal and roll off service.

We opened our own transfer station in Brattleboro about a year and a half ago so the reduction in the \$6.00 per ton for the material mentioned in this bill would give us a good shot at some added volume to help run the station and gain new business. We do have an out of state waste facility available to send this material to.
