Questions

What is the estimated tax rate to be charged to get this amount proposed?

Sales Tax on Nail Salons

\$2.23M

Sales Tax on Beauty Salon Services

\$4.3M

How was this \$ amt. chosen/projected?

Over what time period is this projected to take?

how many years?

WHAT IS THE PLAN FOR THE COLLECTED TAX MONEY?

What steps will be taken to insure clean water?

Where does this money go?

How this extra cost can impact our business negatively

*the **extra** cost of the service could prevent clients from including gratuity which has a negative affect on our overall income. It could prove to be a significant hardship*

clients may choose to have "less" service in order to keep their spending down

clients may choose to seek other alternatives in their communities to compensate for additional costs, therefore taking business away from us.
