**Subject:** state budget comment

I can't make it to one of the public hearings on the budget, but I want to encourage the appropriation committees to include a full and fair study of carbon pricing in the budget, no matter what Gov. Scott would prefer. A well crafted carbon pricing plan is extremely effective in reducing carbon pollution and in VT, we are not on track to meet our goals.

We need to at least study alternatives that will help us get back on track.

Thank you,
