Subject: Vermont budget - allocation for climate action

I'm writing to express my extreme dismay that there is no money allocated for addressing climate change in Governor Scott's budget. \$100,000 towards a carbon pricing study would be a good start. Climate change is one of the most serious problems facing us as Vermonters and as residents of this planet, and ignoring it isn't a viable solution. Vermont should be leading the way for the US in terms of climate action.

Thanks for your attention,
Robin Morgan
