Agency of Administration

Department of Finance and Management

Executive Summary

Philosophy:

The primary purpose of the Department of Finance & Management is to oversee efficient and effective operations related to the State of Vermont's finances. We serve our stakeholders in many ways including developing the Governor's budget recommendations consistent with his priorities, delivering reliable financial information, advocating for responsible use of taxpayer dollars, and developing, maintaining and supporting the State's primary financial systems and statewide users. The Department is composed of the Commissioner's Office and three operational divisions: Budget and Management, Customer Support Services, and Financial Operations [Statewide Reporting, Statewide Accounting and Internal Controls].

The Department of Finance & Management, together with Agencies and Departments across state government, as well as the Offices of the State Auditor and State Treasurer, worked together over many years to successfully implement the statewide financial policies and procedures that are geared toward the timely, accurate and complete reporting of financial information. The efforts of this group have resulted in the

Department of Finance & Management receiving, for the eighth consecutive year, the Certification of Achievement for Excellence in Financial Reporting – the highest recognition in the area of government accounting and financial reporting – from the Government Finance Officers Association (GFOA) of the United States and Canada, for Vermont's Comprehensive Annual Financial Report.

The strong fiscal policies of the State of Vermont and its adherence to sustainable budgets, a consensus revenue process and debt affordability standard have resulted in Vermont receiving the highest overall bond rating in New England.

Finance & Management's work provides core operational services and support to departments that provide direct services to citizens, businesses and other organizations, allowing these more visible departments the ability to focus on their services, policy and programmatic work. Finance & Management is a strong and knowledgeable team providing statewide fiscal oversight, support and direction.

The entire department, from the Commissioner, and Deputy Commissioner, to the Division Directors and the entire staff, take great personal pride in the efforts and achievements of our department to date; we pledge to continue to serve the State of Vermont to the best of our abilities.

Economic Challenges

The economy continues to recover at a slow pace. Expenditure demands continue to rise, while revenue growth is not keeping pace. The economic situation continues to strain resources needed to provide essential services to those most in need.

An issue that will keep us ever vigilant in FY 2018 is:

- ★ A successful upgrade and expansion for the VISION ERP system is critical. This will require the dedication of the project teams and the commitment of agency and executive management to ensuring the necessary resources are available to articulate and document detailed requirements pertaining to the VISION upgrade and expansion to include Project Costing, Project Management and E-Procurement. The integration of these processes will allow for more streamlined operations and reporting of financial information.

Funding Levels:

The FY 2018 budget request to the General Assembly, recommended by the Governor, was constructed with an eye to the allocation of available funding to programs and services that most clearly reflect the

mission of the departments and support their core values consistent with the Governor's Executive Order No. 01-17.

Summary

The Department of Finance and Management is committed to developing, maintaining, and advocating for fiscally responsible and sustainable budgets and related management recommendations for the Secretary of Administration and the Governor. The department is also dedicated to maintaining centralized accounting and budget functions that incorporate appropriate internal controls, generate reliable financial information, provide support to users, is transparent to the public and is in accord with established accounting principles and sustainable budgeting practices.

**FY 2018 Budget

FY18 Appropriations Committee Questionnaire

Department of Finance and Management – Office of Budget & Management

1.

a. What are your programs?

Budget and Management's (Budman) primary program is to create the annual state operating budget and to monitor budget-related developments in the current and future fiscal years, and managing the statewide budget development system known as Vantage. In addition, Budman is the home of the Commissioner's Office. The Commissioner and Deputy Commissioner are responsible for overall department operations (including Financial Operations, Statewide Accounting, Statewide Reporting and Internal Controls), policies and procedures, and managing SPOTLIGHT, the new fiscal transparency website. Budman also provides support to the Secretary of Administration's Office (SoA) and reviews SoA contracts, and other financial documents but they don't rise to the level of an identifiable program.

b. How do these programs meet your core mission?

This is our core mission.

2.

a. What does success in each program look like to Vermonters both those served by the program and the general population?

Success is measured in the timely annual production of an accurate, clear, and fiscally responsible State operating budget for the upcoming fiscal year that addresses the Governor's fiscal and policy priorities.

b. What performance measures are used to determine progress and what baseline data is available (current and proposed budget, # served, etc)?

The performance measure is essentially binary – we either produce a budget that meets the above standard or we do not – and the latter is unacceptable. So in that regard our performance measure is 100%.

FY18 Appropriations Committee Questionnaire

3. Is there a better way?

Budget and Management recently implemented a new budget system that allows us to develop more accurate and “granular” budget data, and presents the data more clearly and effectively.

Department of Finance – Financial Operations Division

1. What key functions are performed by your department? Why?

- a. Finance & Management has two essential areas of responsibility and oversight: 1) Establishing and maintaining centralized accounting functions that incorporate appropriate internal controls and generate reliable financial information that is in accord with established accounting principles (Financial Operations Division); and 2) Developing, maintaining, and advocating for fiscally responsible and sustainable budgets and related management recommendations for the Secretary of Administration and the Governor. (Budget & Management Division)
- b. Included in the Financial Operations Division are:
 - i. Statewide transactional accounting including monthly and year-end close out;
 - ii. State and Federal Financial reporting, including Comprehensive Annual Financial Report (CAFR) and CAFR audit;
 - iii. Coordinate annual federal single audit (A-133) with KPMG, Auditor of Accounts and agencies and departments;
 - iv. Management of statewide ERP financial system (VISION);
 - v. Provide VISION training and support (Customer Service Desk) to agency/department fiscal staff;
 - vi. Establish statewide Finance Policies & Procedures, Internal Control Policies and Best Practices;
- c. Duties of the Commissioner as established in statute in 32 VSA §182 (primarily) and many others.

FY18 Appropriations Committee Questionnaire

2. What are the programs your department administers? Include baseline information about numbers served, current budget and funding mix etc.

- a. Financial Operations function is funded by a \$2.994 million (100%) internal service fund, billed to statewide users.
- b. See current statistics in #3 below.

3. What are the measures of program outcomes relative to goals? Current Data?

- a. Financial Operations does not generally provide programs that model other State agencies and departments. Although we do have a few qualitative measures, our functions tend to be task and transaction related which are deadline driven, and for which we do measure statistics:
 - i. Comprehensive Annual Financial Report (CAFR):
 - 1. Received an unqualified opinion from the State's Independent Auditors for the eleventh year in a row;
 - 2. For the eighth year in a row, received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Associations (GFOA). The GFOA is the professional association of state/provincial and local finance officers in the United States and Canada, and has served the public finance profession since 1906. GFOA members are dedicated to the sound management of government financial resources.
 - 3. Vermont is rated Triple A by two of the three rating agencies.
 - ii. VISION – Statewide financial system transactions during 2015:
 - 1. 461,031 - vouchers (payments to vendors) processed;
 - 2. 261,586 - deposits processed;
 - 3. 9,604 - new vendors set-up;
 - 4. 4,000- IRS Form 1099-MISC to be issued in January 2016 for tax year 2015 by the IRS deadline;
 - 5. Handled more than 25,000 customer service and problem resolution inquiries for VISION users; approximately 11,000 by phone and 14,000 by email.
 - 6. Provide over 50 VISION training classes to over 250 course attendees.

FY18 Appropriations Committee Questionnaire

4. Is there anything you would do differently to achieve these goals?

- a. Ongoing IT Project:
 - i. Execution of Phase II of financial system upgrade and expansion project to include critical integrated business processes such as Project Management, Project Costing and Procurement. This will include the migration of V-Trans and VT Department of Labor from their legacy systems to the VISION and VTHR ERP system.

5. Can you allocate funding in your appropriations by program?

- a. Yes, we do have this capability. Unique codes could be established within the VISION System, allowing us to track expenditures and forecast expenditures for budgetary purposes by program.

Financial Operations' mission is to: provide related controls and services for managers and employees of State government; generate reliable financial information that is in accordance with Generally Accepted Accounting Principles (GAAP) and the statements of the Government Accounting Standards Board (GASB); provide VISION users with training materials and support services to maximize the accuracy and timely recording of financial transactions; and to produce the Comprehensive Annual Financial Report (CAFR).

Goals (FinOps):

Goal 3: To produce accurate and informative annual financial statements in accordance with Generally Accepted Accounting Principles (GAAP) and the Government Accounting Standards Board Statements.

Goal 4: To provide statewide managers and business staff with a general framework for developing and evaluating their internal controls.

Goal 5: To communicate with and educate financial stakeholders, including users of the State's financial systems (ERP) to ensure business operations and accounting transactions are accurate and in compliance with federal, state and financial requirements.

Market:

Financial Operations program serves the entire State, its agencies and departments, business offices, state employees and the public.

Resources:

Currently our programmatic resources meet the needs of our program. However, with the pending upgrade of the Oracle Statewide financial system and the implementation of a Statewide Project Costing, Project Management and E-Procurement Applications, we will continue to assess our current staffing levels and redistribute resources accordingly.

The four areas are; VISION Financial System upgrade to version 9.2, Project Costing, Project Management and a statewide Procurement and Contract Management System. These requirements will be used as a baseline for upgrading the financial system and implementing of a statewide solution for Project Costing, Project Management and E-Procurement.
