

Green Mountain Care Board

Susan Barrett, Executive Director
Kate Slocum, Financial Director

State Fiscal Year 18

Executive Summary

The philosophy of the Green Mountain Care Board flows from Act 48 of 2011, which calls for significant change in the way health care is delivered and paid for to ensure access to high quality health care for all Vermonters at a cost that we, as a state, can afford.

The Green Mountain Care Board has three broad roles: It is a Regulator, an Innovator, and an Evaluator of Vermont's health care system.

From Presidential and Gubernatorial elections, to transitions at the Board, to a U.S. Supreme Court decision limiting health care data gathering, to Vermont's significant step towards changing the way that we pay for and deliver health care, 2016 will be remembered as a year of transitions.

Vermont continues to move towards creating a more affordable, equitable and accessible health care system. Under some measurements, Vermont has been a leader in health care reform; for example, a December 2016 Commonwealth Fund report ranks Vermont first in the nation in terms of health care access and affordability.¹ Despite this high ranking, we recognize that there is still work to be done to ensure that high quality, affordable health care is accessible to all Vermonters.

Throughout 2016, the Board continued to work towards this goal through its regulation of hospital budgets, its oversight of health facility planning through the certificate of need program, and the review of health insurance rates and qualified health plan benefit designs. The Board continued its important innovative work by overseeing numerous federal State Innovation Model (SIM) initiatives and by finalizing negotiations with the federal government on a first-in-the-nation All-Payer Accountable Care Organization (ACO) Model.

The Board remains guided in its work and in its decision-making by the triple aim of improving access and quality, while containing health care costs. Through the hospital budget and rate review processes, the Board successfully lowered rates—and therefore costs to Vermonters—through a transparent, public review process in each instance. For fiscal year (FY) 2017 hospital budgets, the Board approved an historically low average annual increase in hospital rates of 1.8%, well below recent estimates of medical inflation.² After adjusting for physician transfers, the Board held hospital net patient revenue (NPR) growth to 3.9%, while national health care expenditures are projected to grow in 2017 by 5%.³ In addition to hospital budgets, the Board held down health insurance rate increases for consumers purchasing insurance plans through Vermont Health Connect (VHC); for example, a benchmark “silver” plan increased an average of 5% in Vermont, compared to average annual increases of 24% nationally.⁴ As a result of the Board's review of the insurers' requested VHC rates, Vermonters saved an estimated \$5.2 million – the difference between the rates as submitted by the insurers, and the rates as reduced by the Board.

¹*A Long Way in a Short Time: States' Progress on Health Care Coverage and Access, 2013–2015'*

²In a December 2016 press release, the Bureau of Labor Statistics estimated current medical inflation at 4 percent. See <https://www.bls.gov/opub/med/2016/medical-care-prices-rise-4-percent-over-the-year-ending-november-2016.htm>

⁴<http://kff.org/health-reform/issue-brief/2017-premium-changes-and-insurer-participation-in-the-affordable-care-acts-health-insurance-marketplaces/>

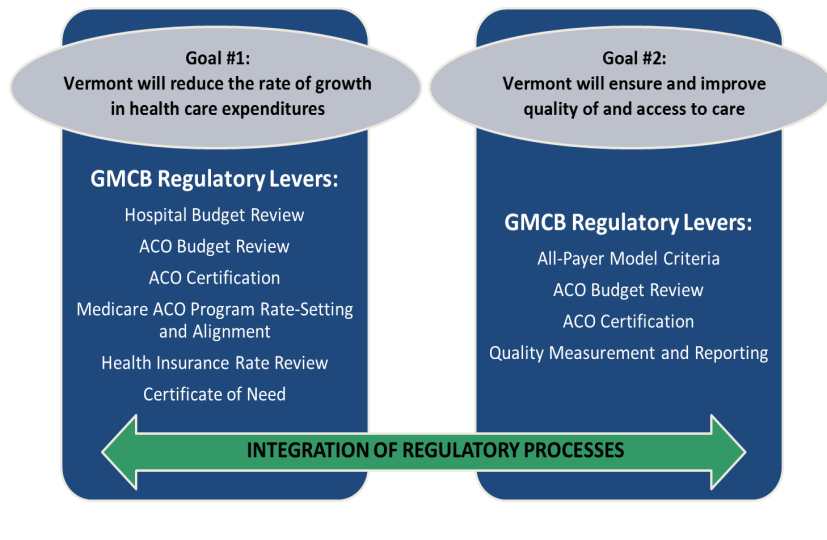

The Board's work on payment and delivery reform in 2016 focused on creating a system that contains costs and rewards high quality care. This year saw the culmination of a two-year collaborative effort by the Green Mountain Care Board, the Vermont Agency of Administration and the Center for Medicare & Medicaid Innovation (CMMI) to develop a system that shifts Vermont away from fee-for-service towards a value-based payment model. In October 2016, the Board unanimously agreed to enter into the All-Payer Accountable Care Organization Model (APM) Agreement, set to begin in January 2017 (Year 0) and run through December 2022 (Year 5). The APM focuses attention and resources on Vermonter's most pressing health needs by setting population goals to improve access to primary care, reduce deaths from suicide and drug overdose, and reduce the prevalence and morbidity of chronic disease. It establishes an annualized 3.5% cap, measured at the end of the Agreement, on per capita health care expenditure growth for all major payers. Vermont's negotiations resulted in key provisions in the Agreement that are paramount to Vermonters' concerns: for example, participation by providers is voluntary; patients will not see reductions to their federal benefits—to the contrary, Vermont negotiated enhanced benefits for Medicare recipients; implementation of the Model is phased-in over time, and the State may terminate the Agreement, without financial penalty and for any reason, upon a minimum of 180 days' notice. The Agreement also preserves Medicare funding for two of Vermont's nationally-recognized programs: the Blueprint for Health advanced primary care program and the Support and Services at Home (SASH) program that provides care coordination and preventive services to Medicare beneficiaries.

Vermont also made health care headlines when the United States Supreme Court decided *Gobeille v. Liberty Mutual Ins. Co.*, in a 6-2 decision (Justice Scalia died before the decision was issued). The *Gobeille* decision held that Vermont's all-payer claims database is preempted by federal law from mandating reporting requirements for self-funded employee health plans. The *Gobeille* decision, though a setback for states' ability to maintain robust health care databases, has sparked discussion amongst the states on how best to collect and use crucial health care data to inform health care policy and research.

Looking ahead to 2017, the Board will be moving forward with a new constellation of members. First, Dr. Allan Ramsay completed his term at the end of September, and was replaced by Robin Lunge, JD, MHCDS in November. In December, Board Chair Al Gobeille was appointed, as Vermont's Secretary of the Agency of Human Services. Then in January 2017, Betty Rambur, RN, PhD, resigned from the Board to accept a prestigious endowed chair at the University of Rhode Island. In 2017, we look forward to working with our new Board members, and are extremely grateful to Chair Gobeille, Dr. Ramsay and Dr. Rambur for their exceptional service to Vermont and to the Green Mountain Care Board.

STRATEGIC PRIORITIES FOR 2017

This figure illustrates which regulatory process may be used as a tool to meet

With the passage of Act 113 of 2016 and the signing of the All-Payer ACO Model Agreement, the Board will plan for and implement new regulatory processes and align existing processes to support the goals outlined in state law and in the Agreement. The Board will be responsible for certifying accountable care organizations; reviewing their budgets; reviewing and advising the Department of Vermont Health Access (DVHA) on Medicaid ACO rates; setting commercial and Medicare rates for ACOs; reporting on progress to the Centers for Medicare & Medicaid Services (CMS); tracking financial benchmarks, scale targets and quality targets, and implementing changes to other Board processes (e.g., hospital budgets; health insurance rate review; certificate of need) to create an integrated regulatory approach.

In addition, the Board will monitor the design of the ACO programs by the commercial payers and by Medicaid to ensure alignment with the Medicare ACO pro-

grams anticipated in the APM. Examples of work to be done by the ACOs and payers include:

- Establishing ACO Initiatives through ACO/Payer agreements (including financial incentives and linkage to ACO quality)
- Developing analytic and reporting capacity
- Implementing payment mechanisms

Last, the Board will need to stay informed and monitor the work of ACOs and providers who are responsible for delivery system reform implementation, including:

- Establishing ACO/provider agreements
- Developing programs to improve care coordination and quality of care
- Meeting scale targets

STRATEGIC PRIORITIES FOR 2017, cont.

Review of Hospital Budget Oversight

The Board will undertake a review of its hospital budget oversight to ensure alignment and efficiency in regulatory processes and clarity and consistency in its decision-making.

Review of Certificate of Need Process

The Board will undertake a review of its CON process to ensure efficient and effective decision-making.

Price Transparency

Understanding that health care providers and consumers need accurate information to make cost-effective medical decisions, the Board plans to explore new ways to increase transparency of health care pricing and quality.

Health Resource Allocation Plan

The Board will begin the process of updating Vermont's Health Resource Allocation Plan (HRAP), last updated in 2009, which can provide an essential tool for understanding the State's overall resource needs and capacity constraints.

Results Base Accountability

Insurance Rate Review

Since January 1, 2014, the GMCB has exercised primary responsibility over major medical health insurance rate review for plans offered to individuals and small group employers through Vermont Health Connect. In its role as regulator, the Board must approve, modify, or disapprove a proposed rate filing within 90 days of its submission. The Board contracts with Lewis & Ellis Actuaries and Consultants (L&E) to provide actuarial support and assist the Board in determining whether proposed rates are affordable, promote quality care, are fair and equitable, and do not jeopardize insurer solvency. In addition to actuarial assistance, the Board takes into consideration the analysis and opinion of the Department of Financial Regulation regarding insurer solvency. This comprehensive regulatory process results in an overall positive impact on the affordability, accessibility, and quality of Vermonters' health care. For example, comparing Vermont's rates to those across the nation, Vermont's premium change from 2016 to 2017 in the 2nd lowest cost silver plan category was 5% compared to the national average of 24%.

The Green Mountain Care Board reviewed 12 BCBS and 11 MVP health insurance plan rates to ensure that Vermonters pay a fair price for quality coverage on VHC in 2017. These 23 plans in total represent all plans available on VHC for 2017.

The Green Mountain Care Board reduced an 8.8% increase proposed by MVP Health Plan, Inc. to 3.7%, reducing the rate increase by 5.1% and saving the insured population an estimated \$1.7 million.

The Green Mountain Care Board reduced an 8.2% rate increase proposed by Blue Cross and Blue Shield of Vermont to 7.3%, reducing the rate increase by 0.9% and saving the insured population an estimated \$3.5 million.

Results Base Accountability

Hospital Budget Review

In 2013, the GMCB implemented a set of principles to govern the hospital budget review process for federal fiscal years 2014 through 2016. These policies have been updated by the Board for FY17, establishing a net patient revenue (NPR) target rate of 3.0% overall for hospital rate increases and an additional NPR allowance for FY17 of up to 0.4% for “credible health reform proposals.” NPR is a key indicator used to assess changes in hospital budgets because it closely tracks hospital expenditures - NPR includes payments received from patients, government, and insurers for patient care, but does not include hospital revenues from activities such as cafeterias, parking, and philanthropy. Annual hospital commercial weighted average rate increases have continued to slow, which has a direct effect on insurance rate increases, and a positive impact on the Vermont economy.

The Green Mountain Care Board reviews hospital budgets for all 14 hospital systems in Vermont.

GMCB limits hospital budget net patient revenue growth using a target of 3.5% overall. This includes both price and utilization change.

Limiting annual hospital rate (price) increases will save Vermonters an estimated \$4 million in federal fiscal year 2017.
